# 1.3 CHAIRMAN'S LETTER

As I write this message, Thailand is facing the third wave of the COVID-19 pandemic, which is more severe than ever before, both in terms of infection and death rates. Coupled with a slow vaccine rollout, the outbreak has inevitably left our national economy and businesses counting the costs. In this challenging time, we fully grasp the hardship everyone is facing; on behalf of the company, I would like to pass on our message of encouragement and hope that we all shall get through this crisis together.

Since the first wave of the pandemic, I, together with the BTS, VGI team and our subsidiaries, have donated over THB 100mn to support various COVID relief programmes. And we have continued to do so during this latest wave. With the aim to bring back a sense of normalcy to the Thai people as soon as possible, VGI Group, in collaboration with the Thai Chamber of Commerce and 40 business leaders, has rendered assistance to the Government in its vaccine rollout plan, by offering our media space free of charge to public agencies and non-profit organisations.

As always, our utmost priority remains with the wellbeing and safety of our employees – “our family” – who are unquestionably the key force that have led us through countless crises. We have done our very best to ensure they are safe and protected regardless of the challenges and difficulties we were encountering. And now, I am happy to announce that we have managed to secure COVID-19 vaccines for all our staff.

Meanwhile, we remain committed to driving sustainable development. Last year, VGI joined hands with Pomelo Fashion Company Limited (“Pomelo”), Asia’s leading omnichannel fashion platform, to launch the “Trash to Treasure” upcycling project, which helped slash over 200,000 pieces of Pomelo’s single-use packaging. Given our leading role in the media industry, we have also offered our media space for many environmental and sustainability projects, for instance, the “Climate Clock” campaign, in collaboration with Root the Future, an environmental non-profit with a mission to raise awareness about climate change and sustainability. To this end, we aim to be listed on the Dow Jones Sustainability Indices (DJSI) and Thailand Sustainability Investment (THSI) as part of our corporate sustainability mission.

While the last fiscal year was marked by unprecedented volatility due to the coronavirus outbreak, VGI managed to achieve total revenue of THB 2,480mn and net profit of THB 980mn, and was able to pay dividend to our shareholders at THB 0.061 per share. This is a testament to our robust business foundation and the efficacy of our Offline-to-Online (“O2O”) Solutions strategy, which have continuously earned us the trust of leading businesses and corporates from various industries.

In the past year, VGI has formed new alliances with several major companies leading the digital transformation, who are also steadfast in helping consumers overcome the impact of COVID-19. Rabbit Group, our subsidiary, has entered into a joint venture with AEON Thana Sinsap (Thailand) Public Company Limited, a market leader in retail financial services, and Humanica Public Company

**Keeree Kanjanapas**  
Chairman of the Board of Directors

Limited, a pioneer of human resource management system, to offer Digital Lending service through the establishment of Rabbit Cash Company Limited (“Rabbit Cash”), creating an easy solution for consumers to access funding at their fingertips. Moreover, Rabbit Group has signed a MoU with Mitsubishi Corporation Group to bind Mitsubishi staff IDs with the Rabbit Card, an alliance which helps promote health and safety of Mitsubishi employees through contactless and cashless interactions.

It is also with great pleasure that another one of our subsidiaries, Kerry Express (Thailand) Public Company Limited (“KEX”) was successfully listed on the Stock Exchange of Thailand (“SET”) on 24 December 2020. We are very proud that our advertising efforts helped play a role in leading KEX Initial Public Offerings (“IPO”) share price to surge remarkably by 132% to THB 65.00 per share from the IPO price of THB 28.00 per share. The partnership between VGI and KEX remains strong ever since we invested in KEX in August 2018. We have continued to co-develop synergy products and services to provide new advertising solutions for our clients, including through the delivery of more than 1.6 million sampling products; installation of wrap advertising on over 700 KEX trucks; and introduction of a “Driver Handover” service, which enables retailers and brands to deliver product samplings handled by KEX’s couriers to end consumers through KEX’s last-mile delivery.

Marking our success as the leading provider of O2O Solutions, we have been awarded the Thailand’s Top Corporate Brands 2020 Award for achieving the highest

corporate brand value, and the SET Awards for Best Investor Relations for the second consecutive year. Internationally, we have also won the International Finance Award (IFA) for the Most Innovation O2O Solutions for Payment and Logistics Platforms and ASEAN’s Transformation Champion in 2020 from Innosight. Such recognitions attest to our unique capabilities and determination to achieve success and sustainable growth. Moreover, VGI was included in the MSCI Small Cap Indices by Morgan Stanley Capital International (MSCI) Index, an achievement which reflects investor confidence in our business potential, both at the national and international levels.

Finally, on behalf of the Board of Directors, executives and staff, I would like to express my heartfelt thanks and gratitude to all stakeholders who have supported us during this trying time. We shall remain vigilant and monitor the situation closely in order to be proactive in tackling sudden challenges. With our diversified business portfolios and experience in handling disruptions in the past, I firmly believe that we will be able to navigate this crisis once again. To all our staff, a big thank you for your relentless dedication, patience and hard work in helping our company succeed over the years.

Last but not least, I would like to extend my very best wishes to all medical personnel and parties involved in the fight against this pandemic. I thank you from the bottom of my heart for your courage and sacrifice. I am confident that Thailand will overcome this once in a lifetime challenge and, together, we will prevail.

#### NETWORK

The Company has rights to manage advertising space across the BTS SkyTrain core network and extensions (collectively, "BTS Network"), which run through key commercial, residential and office areas of central Bangkok. The BTS Network covers 31 stations (including 7 extension stations) with a combined track length of 31.0km as well as 98 BTS trains (392 carriages). Transit media on the BTS Network has one of the highest viewer exposure in the OOH media sector

#### PRODUCTS

The Company caters to advertisers at all levels through a diversified Transit media product portfolio that captures both large groups of viewers and targeted audiences. Our products are widespread across trains and stations, where BTS's passengers are able to see our media during their journey on the BTS Network. Our media on the BTS

Network is categorised into 2 main products comprising of media space rental and merchandising space rental.

- **Media Space Rental**

VGI offers 2 main types of media platform on the BTS Network comprising of static and digital media. Our Transit media originated from static media and we currently have over 20,000 static displays, such as train wraps (inside and outside the trains), stairs, ticket office and advertising on station platforms. One of our most popular static media is the full train sponsor, which display advertising cover both inside and outside BTS train body as well as LCD screen in train. This product is similar to a giant moving billboard that courses through Central Bangkok, captivating the attention of transit patrons, motorists and pedestrians in a unique way.

The increasing proliferation of digital media has reshaped the media landscape significantly. Digital media is now the key feature of Transit media as it provides advertisers with flexibility and scalability to communicate messages to a target audience through frequent delivery of dynamic images. We have over 2,000 digital screens in trains and on stations in the form of LCD screens in trains, Platform Truss LEDs, Platform Screen Doors and E-Posters. With the introduction of digital media, we are now able to offer innovative products that integrate digital and static media such as our Platform Truss LEDs, which synchronises with the movement of the incoming train to display the same advertisements as the train wrap when the train arrives at the station.

- **Merchandising Space Rental**

The Company has the rights to manage merchandising space on 31 BTS stations and is responsible for investment of the utility system and maintenance of the stations for the duration of the contract. Construction and decoration of the shops, which must be approved by the Company, are the responsibility of the tenants, along with utility expenses according to actual usage. As of 31 March 2021, merchandising space comprised of approximately 8,244<sup>2</sup> sq.m. with more than 1,105 shops and kiosks for rent. In terms of rental duration, we provide short term contracts of 3 to 6 months for kiosks and medium term contracts of 1 to 3 years.

## CONCESSIONS

- **Core Network Concession**

The Company was granted the rights to manage advertising space across 24 stations on the core network from our parent company, Bangkok Mass Transit System Public Company Limited (“BTSC”) from 18 May 2012 to 4 December 2029. A percentage-based revenue sharing scheme is applied to the core network contract and paid to BTSC on an annual basis. The revenue shared is determined by a percentage of the Transit media revenue generated from the core network, starting at 5.0% on the effective date of the contract (18 May 2012) and increasing by 5.0% every 5 years to a maximum of 20.0%.

- **Extensions Concession**

In May 2015, the Company was granted the rights to manage advertising space across 7 stations on the extensions to the core network from BTSC and Bangkok Metropolitan Administration (“BMA”) from 6 May 2015 to 4 December 2029 and a fixed rate concession fee is paid to BMA.

## 2.2 OFFICE

### NETWORK, PRODUCTS AND CONTRACTS

VGI offers two types of networks under building media: Office media and the recently acquired Residential Building media. Office media includes digital screens which are installed inside office building elevators as well as other waiting areas inside office buildings, such as lobbies. Residential Building media consists of digital screens in residential buildings. Office and Residential

Building media, particularly inside the elevators, are considered captive media as there is confined space where the media are placed and people are usually idle; therefore, the audience’s attention tends to be more focused towards the advertisements. Advertisements in the elevators are extremely successful at being viewed frequently due to their high traffic, as it is the only practical means of accessing high-rise office building, and are seen several times a day. As of 31 March 2021, VGI owned the largest Office media network with 192 office buildings and 1,476 screens which are centrally-controlled from VGI’s head office.

Our Office media is also being complemented by a horizontal expansion into an adjacent segment. In November 2015, VGI became an exclusive sales agent for Artista Media Limited Partnership (ARTISTA) across 315 residential buildings under leading brands such as AP, LPN and Grand Unity Development, making VGI the largest media company in the country to provide advertising services in office and residential buildings, covering 507 buildings with over 2,233 screens.

The duration of each contract is typically 3 to 5 years and VGI has sole exclusive rights during the contractual term. Other individuals are not permitted to advertise inside the elevators, at the lift lobby or within 20 – 30 meters from the lift lobby area. Remunerations for the buildings’ landlords depend on each agreement; some landlords require annual fixed rates while other landlords require revenue sharing with annual minimum guarantees.

## 2.3 OUTDOOR

Outdoor media segment, which we operate through MACO, is another focus area for the Company. Following to MACO’s agreement with PlanB on Advertising Media Management and Service Agreement, PlanB has become an exclusive selling agent for all domestic media assets of MACO, while MACO will only be the owner for those assets. After this restructuring, MACO will focus on international expansion across the ASEAN market, which they have already laid the strong foundation for growth in Malaysia and Indonesia as well as expanded its footprint into Vietnam market. With MACO’s extensive network, VGI has now expanded its presence from Thailand to ASEAN region. (Please find more details of the Outdoor media segment in 2020/21 MACO’s annual report and 2020 PlanB’s annual report)

## 2.4 AVIATION

The Company entered into Aviation market through an initial 20.0% investment in Aero Media in 2015, which has since been increased to 30.0%. Aero Media was granted the rights to provides media services for domestic airports throughout Thailand, including Thailand's prime airports, Suvarnabhumi Airport and Don Muang Airport. Its products include a wide range of advertising structures in different key formats comprising of LED Screens, Jet Bridges, trolleys media and inflight media.

## 2.5 ACTIVATION

VGI has expanded the business into demonstration business, known as direct sampling, through a 40.0% investment in Demo Power. With more than 20 years of experience, Demo Power is the largest trial and demonstration service company in Thailand covering more than 1,000 locations nationwide and is the largest player in this market. Demo Power's network includes exclusive partnership with the top retailers in Thailand to manage the entire process of demonstration in Big C, Tesco Lotus, Tops Supermarket and Villa Market as well as commercial space at BTS, MRT, office buildings and popular theme parks. From hypermarkets to supermarkets and BTS stations, the nationwide coverage enables the business unit to reach more than 40mn audience interactions a year.

## 2.6 ONLINE AND DIGITAL MARKETING

Nowadays, advertising world has dramatically changed as advertisers' demand for the total solutions to meet their marketing objectives – Awareness, Engagement and Conversion. VGI is aware of this trend, hence, we established a new business unit named VGI Digital Lab which is a comprehensive online media agency. The core product, customer data platform (CDP), aggregate and combines real purchase data across our platforms – Advertising, Payment and Logistics. Purchase or transaction data is the best indicator of future buying behavior and we can build targeted audience for digital marketing which delivers higher end conversion performance for our clients when compared to the standard practice of targeting based on online behavior. With growing popularity, the service received higher demand from both local and global brands.

## 3. TARGET CUSTOMERS

As the market leader in Offline-to-Online (“O2O”) Solutions, with extensive and diversified media platforms, we are able to reach a wide range of audiences, both in Bangkok and beyond. Through our pioneering services, we are able to deliver unique solutions to meet the demands of advertisers and brands who turn to our services not only to foster Brand Awareness, Engagement and Conversion, but also to improve their corporate image, especially major companies and thriving businesses with high growth potential.

Our clientele can be divided into 2 categories, comprising of 1) media agency and 2) direct customer, both from the public and private sectors. We strive to continuously grow our client base by constantly optimising our services and expanding our networks – offline and online – utilising Big Data from our subsidiaries and corporate partners to deliver precise and effective solutions to meet the lifestyles of our target customers, thereby solidifying our customer base. The contribution between media agency and direct customer are summarised as follows:

% to total revenue	2018/19	2019/20	2020/21
Agency	75.8%	68.4%	64.0%
Direct Clients	24.2%	31.6%	36.0%

## 4. ENGINES FOR GROWTH

### 4.1 5 – 6X ORGANIC GROWTH FROM BTS EXPANSION

Currently, the total length of existing rail mass transit lines is only 169.6 km<sup>3</sup> (including BTS SkyTrain, MRT Subway and Airport Rail Link), mainly covering areas around the city centre. The pervasion (defined as rail mass transit length per million population) in Bangkok has reached merely 15.6 km<sup>4</sup> per million of the Bangkok population, far behind those of other developed countries. As such, the government has made the expansion of public transportation infrastructure a top priority on the national agenda. The latest Mass Rapid Transit Master Plan in the Bangkok Metropolitan Region (M-MAP, 2010 – 2029) outlines an aggressive plan to develop rail mass transit into a more mature network. The Ministry of Transport's Office of Transport and Traffic Policy and Planning (OTP) targets to have 12 routes with a total rail length of 515.2 km across Bangkok and vicinities by 2029. The expansion of the rail mass transit network such as the BTS SkyTrain, MRT Subway and Airport Rail Link can all expect to receive mutual benefits as the lines act as a feeder to each other, which gives potential opportunities for Transit media companies to tap into the rail mass transit expansion network.

As of 31 March 2021, the BTS Network was able to capture around 41.1% of the market share in terms of distance. However, BTS is the leader in terms of ridership with a market share based on weekday ridership of 59.0% on the entire network as it is located in the Central Business District area in Bangkok<sup>5</sup>. In terms of advertising, the higher ridership translates to more viewers or "eyeballs" of our advertising; therefore, the growing number of eyeballs will make our Transit media increasingly valuable to media advertisers. Despite this, the existing rail mass transit is still immature. In the next 4 years, the government and the BMA are planning to implement an additional 175.9 km of which BTS is well positioned to secure a total of 77.5 km. Therefore, VGI stands to benefit immensely from the mass transit network expansion and we expect that our media capacity will increase up to 5 to 6 times in terms of number of trains and stations once BTS has secured and operates all of the new lines.

### 4.2 INVENTORY EXPANSION FROM DIGITALISATION

Nielsen study reveals OOH is the second fastest growing media category with OOH medium providing the highest rate of online activation per dollar, of any offline media. It was even more effective than digital banner ads. Advertisers are building on this, using cross-channel campaigns that span OOH placements and mobile ads, often tied to specific locations. As such, this trend is projected to grow going forward as more campaigns continue the conversation across multiple media channels not only just a single media outlet.

The proliferation of Internet of Things (IoT) devices and ongoing development of future smart technological devices will enable Digital OOH to actually take the market share from the overall advertising spending due to the ability to offer a potent combination of higher-quality and more dynamic advertising, more precise targeting and more effective outcome measurement. Future Market Insights expects Digital OOH to grow substantially globally by 11.0% CAGR over the forecast period of 2018 – 2028. As part of our strategy, the Company is already and will continue to convert our OOH assets to digital media. Since 2019, the Group's companies has been released digital media across our OOH network such as 40 screens of VGI Immerse on 4 BTS stations, 42 LED screens of MACO's Street Media and 107 screens of Welcome Package on 20 BTS stations.

## 5. RESEARCH AND DEVELOPMENTS

Technologies from emerging communications industries can be combined with OOH media to make the OOH medium more attractive, dynamic and interactive. This competitive advantage is allowed OOH advertising budget to take market share from the total advertising spending. In doing so, the Company has anticipated the desire from advertisers for media that deliver engagement. During 2018/19, VGI has formed joint venture named VGI AnyMind Technology Company Limited with AnyMind Group Limited (“AnyMind Group”), an Artificial Intelligence (AI) solutions provider for the advertising, influencer marketing and human resource industries. Through VGI’s OOH media inventories, Rabbit Group’s data and AnyMind Group, the joint venture will be able to offer products that combine the power of data optimisation and advertising spaces to the market. This partnership extends VGI’s offering in the increasingly important market segment of Digital OOH media and leveraging AnyMind Group’s technology and digital platform to deliver performance-driven, dynamic and highly-targeted ads offline and online – creating a seamless O2O customer journey.

Moreover, the Company and iClick Interactive Asia Group Limited (“iClick”) (Nasdaq: ICLK), an independent online marketing and data technology platform in China, have formed a joint venture named V-Click Technology Company Limited that will enable brands in Southeast Asia to capture the multi-billion dollar Chinese consumer market through a range of technology-driven marketing solutions. Together the firms will generate significant cross border marketing opportunities, which can be addressed through a suite of mobile and new media products, including:

- China Solutions, which comprise a wide range of digital marketing offerings ranging from marketing intelligence tools, social, and mobile solutions. These offerings not only help clients gain in-depth insights of the Chinese market based on iClick’s 780mn consumer profiles, but also provide an efficient way for clients to acquire the right consumers across multi channels in China, especially the significant number of Chinese outbound travelers.

- O2O Solutions – 10,000 new mobile charging stations with the ability to display marketing messages that will be introduced and placed throughout VGI’s network across Thailand, in prominent locations such as BTS SkyTrain stations throughout Thailand leading mass transit system, and the distribution centres of Kerry Express (Thailand) Public Company Limited (“KEX”), the leading parcel delivery company in Thailand.

Additionally, VGI Digital Lab, our data-driven digital marketing arm, will help us on creating unique product offerings by monetising the Company and partners’ purchase and transaction data. This will allow us to target the right advertising in the right channel at the right time to the right audiences.

## 2.1.2 PAYMENT BUSINESS

Our payment business is operated under Bangkok Smartcard System Company Limited (“BSS”) and BSS Holdings Company Limited (“BSSH”), collective called “Rabbit Group”. Rabbit Group is a Digital Lifestyle Solutions with 2 key services: 1) Payment and 2) Services. Payments on the mass transit system and retail stores through the Rabbit Card and Rabbit LinePay (“RLP”), an e-Wallet for both offline and online (e-Commerce) payments. Services includes providing micro-loans under Rabbit AEON loan, an online brokerage and comparative website under “Rabbit Finance” and a digital lending provider under “Rabbit Cash”.

### 1. KEY DEVELOPMENTS IN 2020/21

- Rabbit LinePay Company Limited launched an app-to-app top up service to provide more convenient for RLP users by seamlessly connecting RLP e-Wallet with 3 Mobile Banking applications, including SCB EASY, K PLUS and KMA.
- RLP has partnered with eLong International Travel (Hong Kong) Limited or ‘TravelGo.com’, the leading Chinese online travel booking platform, to provide an exclusive online flight and bus reservation services through RLP platform. This strategic cooperation will allow us to provide seamless and high-quality mobile travel service.

- The number of Rabbit cards issued have increased by 9.0% to 14.2mn in 2020/21. The growth is driven by an expansion of rabbit card’s touchpoints to several transportation modes including BTS new lines, buses (Chiang Mai, Phuket, Salaya and Nontaburi), and piers & boats along the Chao Phraya River as well as collaboration with leading companies to use Rabbit Card as staff ID card.
- RLP now serves more than 8.2mn users, an increase 11.8% from March 2020, which driven by an expansion of its services to cover several platform such as transportation, food and e-Commerce.

## 2. BUSINESS UNIT

### 2.1 PAYMENT

The Rabbit Card was launched on 1 May 2012 by BSS, introducing an electronic fare collection system for the BTS Skytrain and the BRT. Within eight years of operation, nearly 14.2mn Rabbit Cards have been sold. BSS has also partnered with over 500 retail partners, covering a wide variety of brands in food and beverage, retail as well as the entertainment sector. Since last year, BSS has launched its Rabbit Card usage and top-up service at mini Big C and FamilyMart convenience stores and at food courts under the CPN group and Central department stores, expanding the Rabbit retail network nationwide.

BSS has continued to partner with major food and beverage retailers, such as KFC and the Minor Food Group (Burger King, Swensens, Dairy Queen etc.) and enter into coffee shops and stores in petrol stations as Inthanin coffee and Spar super market. BSS has also secured a deal with Watson pharmacy nationwide and brought in a major deal with Sony Technology (Thailand) Company Limited, enabling Rabbit Card usage in the canteen at their Amata site.

In April 2016, Rabbit Group has further expanded its e-money business from offline to online channels by establishing the first integrated offline-online e-Wallet service in Thailand called RLP. The joint venture between Rabbit Pay System Company Limited, LINE Company (Thailand) Limited and LINE Biz Plus Limited, merges a substantial base with the most popular messaging application in Thailand. Later, in March 2018, Advanced Info Services Public Company Limited (“AIS”), the number 1 telecommunications operator in Thailand, joined RLP as the third member of the joint venture. Along with AIS the other stakeholders of RLP are also the number 1 players in their respective industries: Bangkok Mass Transit System (BTS) in transit, Rabbit Group in cashless micro payments, LINE messenger in mobile communications, KEX in e-Commerce logistics and VGI. The partnership establishes anchors and will drive adoption of cashless payments, offer solutions for the ‘unbanked’ population and is aligned with the government’s vision of Thailand 4.0 and a cashless society.

Likewise, during the past year, RLP has grown its merchant base significantly through offline and online channels. RLP now has over 8.2mn users. In October 2019, RLP partnered with Bangkok Bank to launch the Be1<sup>st</sup> Smart Rabbit LinePay Card, which is sold through Bangkok Bank branches nationwide. This partnership has assisted RLP to acquire more users and promote its offline-online e-Wallet services.

Apart from expanding coverage and user base, RLP has collaborated with LINE to allow LINE points to be spent with RLP merchants. The collaboration increases RLP user stickiness as well as potentially encourages LINE users to register for RLP.

Through these expansion and partnerships, we have now become the leading e-money service provider with integrated payment services on both offline and online channels. Together, RLP e-Wallet and the Rabbit Card can be used at more than 100,000 offline and online merchants. Finally, through our micro-transaction data analytics, we can enhance our media business by offering our clients intelligent, targeted advertising and activation capabilities.

## 2.2 SERVICES

### Rabbit Finance

Rabbit Finance is part of the Rabbit Care Company Limited (formerly known as Rabbit Internet Company Limited) and currently Thailand’s largest financial marketplace with online comparison services for insurance and banking products as well as offline (telesales) conversion capabilities. Rabbit Finance generates revenue streams from B2C insurance brokerage, B2B insurance brokerage, insurance media, banking media and other media. (Please find more details about Rabbit Finance services and clients at Rabbit Finance’s website as link: [www.rabbitfinance.com](http://www.rabbitfinance.com))

### AEON Rabbit Member Card

BSS has partnered with AEON Thana Sinsap (Thailand) Public Company Limited (“AEON”) to launch the AEON Rabbit Member Card, merging the services and benefits of BSS and AEON into in one card. The co-branded card was launched on 16 February 2015. This card aims to give cardholders additional financial services (access to personal credit facilities, cash withdrawal and purpose loans from business partners of AEON’s network) and quick access to mass transportation and easy payment channels at various retail outlets. The current loan balance is more than THB 1,500mn.

## Rabbit Cash

On 1 April 2021, BSSH established a joint venture named Rabbit Cash Company Limited (“Rabbit Cash”) with AEON and Humanica Public Company Limited (“Humanica”). Rabbit Cash will leverage technology and digital payment of Rabbit Group along with experience in various forms of microfinance of AEON and Humanica’s network to create an easy solutions for consumers to access funding through digital platforms. The joint venture aims to launch a welfare loan for interested employees under Humanica management for over 700,000 people and expect to develop in other financing products within 2021

### 3. TARGET CUSTOMER

As a pioneer in e-money services in Thailand, Rabbit Group offers digital lifestyle solutions catering to the majority of consumer groups in Thailand, especially for smartphones and public transportation users. With the rise of e-commerce and social commerce markets in the country, which has led to a shift in consumer behaviour towards cashless transactions and digital financial services, Rabbit Group’s customers are growing rapidly. This is even more so as many businesses have opted to replace their employee ID cards with the Rabbit Cards in order to provide more convenient solutions for their employees.

### 4. ENGINES FOR GROWTH

The increasing use cases and partnership models are key to driving our payment business. We will be launching various services on the RLP platform, including partnerships with Online Travel Agencies (OTAs) and insurance comparative websites as well as our new digital lending business, on top of our existing services. Each transaction will provide insights into each individual consumers’ interests and offline and online behaviours; thereby improving the depth and breadth of our database. This in turn will enrich and expand our O2O Solutions and enables us to offer an integrated model of services on branding, engagement and performance for our clients.

### 2.1.3 LOGISTICS BUSINESS

In August 2018, VGI has expanded to Logistics business, through a 23.0% investment in KEX, the number 1 express delivery services with average parcels delivered at 1.2mn in a day and is a member of Kerry Logistics Network Limited’s global network. This acquisition is a significant step for the Company to establish an O2O ecosystem. As at end of December 2020, KEX’s network and services cover more than 1,230 distribution centres with over 15,991 service points nationwide, KEX takes the lead in convenient, reliable and speedy delivery solutions to its customers, ranging from individuals, e-retailers and individual sellers on social media and ensures their parcels are successfully delivered on time. KEX pioneered payment-on-delivery in the country including the acceptance of cash or RLP upon the pickups and deliveries to households.

#### 1. KEY DEVELOPMENT IN 2020/21

- On 24 December 2020, KEX was successfully listed on the Stock Exchange of Thailand (SET) under the trading ticker ‘KEX’. Its share price surged by 132% to THB 65.00 per share from the Initial Public Offerings (“IPO”) price of THB 28.00 per share. During the IPO period, VGI was the spearhead in pushing the boundaries of advertising for KEX’s first IPO by utilising all media assets under the Company’s platforms to enhance awareness, engagement and conversion for KEX’s investors and interested stakeholders.

- Since the acquisition of KEX in July 2018, VGI and KEX have continued to launch several product development, including more than 1.6mn pieces of smart sampling and parcel sticker, 700 Trucks Wrap and 4 parcel shops on 4 BTS station. Moreover, we also introduce new product called 'Driver Handover' – a new product development with KEX – to deliver product samplings handled by KEX's couriers for end consumers through KEX's last-mile delivery, which expects to fully launch within this year.

## 2. TARGET CUSTOMER

As the pioneer of convenient and express delivery solutions in Thailand, KEX offer a comprehensive range of integrated parcel delivery services to customers which related to e-Commerce and social commerce industries including Consumer-to-Consumer (C2C), Business-to-Consumer (B2C) and Business-to-Business (B2C). Moreover, consumers have now become reliant on the newfound digital shopping solutions, shopping online is no longer seen as an option for many but rather a necessity. This led to Direct-to-Consumer (D2C) trend, whereby businesses build their own online channels and utilise social media or e-market platforms, which will stimulus online transaction going forward.

## 3. ENGINES FOR GROWTH

Despite 2020 was the year of uncertainty from the pandemic, but being a blessing in disguise for the e-commerce and social commerce sectors. This was mainly due to the restriction measures created a shift in consumers' habits towards online shopping, which rapidly turned into part of the 'new normal' lifestyle'. Moreover, Thailand's high internet penetration rate, the average time a consumer spends on the internet via communication devices and a growing middle class with higher purchasing power will create opportunities for last-mile delivery companies to capture higher volume growth.

Given that Thailand's e-Commerce to retail penetration rate and parcel delivery volume per capita is still immature compared to developed countries', the logistics sectors are well-positioned to accommodate and propel further growth of e-Commerce in the country moving forward.

### 2.1.4 OUR STRATEGY

Since VGI has successfully established itself as the O2O Solutions provider with a comprehensive ecosystem – Advertising, Payment and Logistics. We are able to offer higher quality of advertising and marketing campaigns at every touch point of the customer journey, bridging by the Group's data to provide a better solutions for our clients.

#### OFFLINE

As communication channels become more fragmented, a one-stop-shop media solution is becoming more relevant. Consolidation is the key to our success. VGI is already the leader in OOH media in Thailand.

Our media portfolio covers all forms of OOH advertising such as Transit, Billboards, Street, Buildings and Airports. This business unit is expected to see continued growth substantially, with mass transit line expansion; increased building supply; billboard and street portfolio expansion through new licensing agreements and external collaborations; and the increasing popularity of low cost airlines. Furthermore, we are focusing on expanding our presence in key ASEAN markets, such as Malaysia and Indonesia as well as other countries in the region.

To ensure we remain at the top in the OOH advertising industry, we intend to unlock greater value from our OOH media portfolio through the digitalisation of our top value OOH media assets to offer innovative premium products.

#### DATA

Determining the right target audience can no longer be based on simple demographic terms. To know your customers, it is crucial to fully grasp their interests, behaviour and decision-making processes. The superior quality of the data and depth of information we possess allow us to engage our target audience with the right advertising messages, at the right time, throughout our customer touchpoints.

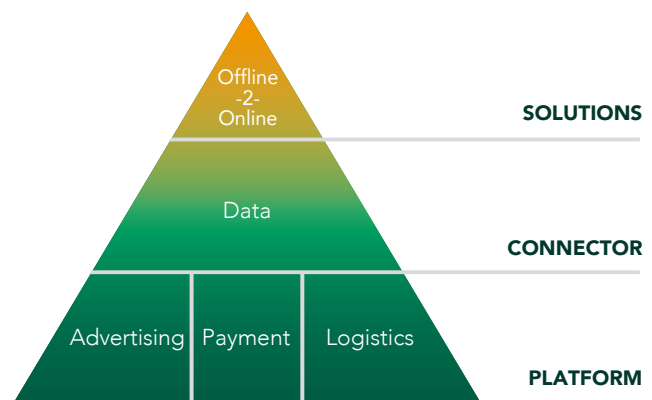

Our key vertical move to complement our existing business portfolio involves the expansion of our payment network through our subsidiary, Rabbit Group and partnerships with its strategic alliances. In addition, to enhance the performance of our products and solutions, we constantly experiment and pivot the use of data with various targeting technologies. With such dedication, we can attract, develop and retain the best talents to build a strong data scientist team.

#### ONLINE

Digital and online marketing has become one of the key channels for advertising driven by the acceleration of internet access and the increasing popularity of smartphones. Advertisers can use these channels to reach a wider audience, whether in city centres or elsewhere. We are pioneering in this unique online field which enables us to integrate online and offline media inventories into one single end-to-end advertising platform.

#### SOLUTIONS

In a period of historical soft media advertising spend and structural and behavioural shifts, competitive pressure is heightened. By broadening our exposure to OOH media – which continues to grow solidly – VGI has deftly positioned itself to benefit from new paradigms while augmenting its service offerings with potentially more effective, targeted and more readily measurable solutions. Our strategy is clear, strengthening the integration of our offline to online platform, spanned by the continual enrichment of our data sources, to provide optimal O2O Solutions for our clients.

# INDUSTRY DEVELOPMENT 2.2

## ADVERTISING INDUSTRY

2020 was a year of unprecedented challenges. According to the Bank of Thailand (“BOT”), the country’s GDP declined by 6.6% compared to the previous year, the most severe contraction since the 1998 Asian Financial Crisis. This was mainly due to the COVID-19 pandemic and subsequent lockdowns issued by the Government, which had a major bearing on the export and tourism sectors. With the economic slowdown, advertising expenditures<sup>1</sup> fell by 15.6% YoY to THB 104,407mn. Traditional media (newspapers, magazines and radio), Out-of-Home (“OOH”) media, and television declined by 28.6%, 19.5% and 12.8% to THB 7,435mn, THB 11,715mn and THB 61,330mn, respectively. Meanwhile, digital media grew slightly by 0.3% YoY to THB 19,610mn.

The Thai advertising market has been shaped by major developments over the past few years before the crisis period. Traditional media such as television, newspaper, magazine and radio has been in steady decline, while OOH and online/digital media have become the go-to choice of advertisers. The expansion of OOH and online/digital media has been encouraged by several factors, including lifestyle changes, with the urban population spending more time outside their homes; the rapid increase in the number of internet users (today the internet penetration rate in Thailand stands at 69.5%, while the average time a consumer spends on the internet via

communication devices is around 524 minutes per day<sup>2</sup>, a significant increase from 300 minutes per day in the past few years) and the growing recognition of these media as effective and measurable advertising and marketing tools.

Within the OOH media landscape, the trend has shifted from the sole focus on OOH platform to an integrated platform connecting the offline and online worlds. This new approach has proven effective in helping advertisers reach the desired target audience rather than reaching a large audience via mass communications and meet their objectives in creating awareness, engagement and conversion. In this exciting environment, companies able to adapt themselves are more likely to survive and outperform their counterparts.

Nielsen study in 2017 reveals OOH is the second fastest growing media category, with OOH medium providing the highest rate of online activation per dollar of any offline media. It is found to be even more effective than digital banner ads. Advertisers are building on this, using cross-channel campaigns that span OOH placements and mobile ads, often tied to specific forward as more campaigns continue the conversation across multiple media channels not only on just a single media outlet.

In addition, digital technologies have led to the significant growth of OOH advertising. Future Market Insights<sup>3</sup> expects Digital OOH to grow substantially globally by

<sup>1</sup> Nielsen Company (Thailand) and Digital Advertising Association (Thailand) (“DAAT”)

<sup>2</sup> We are social, Hootsuite, Jan 2021

<sup>3</sup> Future Market Insights is the premier provider of market intelligence and consulting services in over 150 countries.

11.0% CAGR over the forecast period of 2018 – 2028. The promising potential from the integration of OOH and online/digital media will enable both sectors to actually take over market share from the overall advertising spending, particularly from traditional media sector, due to their ability to offer a potent combination of higher quality and more dynamic advertising, more impact, more precise targeting and more effective outcome measurement.

### **E-COMMERCE INDUSTRY (PAYMENT AND LOGISTICS)**

In 2020, Thailand's e-Commerce market grew remarkably by 80.0% YoY to THB 294bn<sup>4</sup>, driven by the Coronavirus outbreak, which led consumers to switch to online channels to purchase products and services to avoid frequenting crowded spaces. This impressive growth was also spurred by more retailers and brands moving towards digital commerce to seize the e-commerce boom, and the fact that internet penetration in Thailand reached 69.5%, coupled with an increase in time spent online and overall consumer's purchasing power.

The expansion of the e-Commerce market has significantly influenced the Thai government to launch the Digital Thailand 4.0 programme in order to support and accommodate digital payments. Under this programme, the government has allocated budget to build a nationwide broadband network, installing more than 881,337 electronic data capture (EDC) terminals<sup>5</sup> across the country as well as launching the PromptPay service, which allows registered customers to transfer funds using only their mobile numbers or citizen ID. Such initiatives have brought new wave of opportunities for the digital payment sector as it is an integral and flexible part of the e-Commerce market. This has in fact been reflected in a strong growth in digital payment overview with the digital transaction volume in 2020 increasing by 318.1% to 13,400mn from 2016, and the digital transaction per user per year jumping significantly from 49 in 2016 to 133 in 2020. This massive expansion in digital payments is also driven by demands arising from an increase in the number of internet users and mobile phones, and an influx of innovative technology allowing for more convenient transactions.

The rise of e-Commerce is also fueling enormous growth in logistics as it is the final platform connecting sellers with end-consumers. With burgeoning demands from both online retailers and consumers, the opportunities for Thailand's logistics industry are endless. A perfect example of this new phenomenon is the proliferation in the number of customers of Kerry Express (Thailand) Public Company Limited ("KEX"), an associated company of VGI. Back in 2012, KEX's service was dominated by corporate customers or Business-to-Business (B2B), however the increasing pervasiveness of e-Commerce has shifted its operations to around 56% Consumer-to-Consumer (C2C) in 2020. Thanks to the booming e-Commerce activities, KEX's was also able to deliver 1.2mn parcels in a day in 2020, up from 8,000 parcels in 2012, a 150X increase.

Given that Thailand's e-Commerce to retail penetration rate is still immature compared to developed countries', the digital payment and logistics sectors are well-positioned to accommodate and propel further growth of e-Commerce in the country moving forward.

## 1. HISTORICAL SHARE PRICE ANALYSIS AND TRADING SUMMARY

Figure 1: VGI Annual Stock Performance

Source: www.setsmart.com

2020/21 was marked by unprecedented volatility mainly caused by the Coronavirus outbreak. Starting in March 2020, the World Health Organisation (WHO) declared COVID-19 a pandemic, sending shockwaves across global equity markets. During the same period, the outbreak in Thailand spread in several clusters, of which the largest was at Lumpinee Boxing Stadium. Thereafter, confirmed cases continued to rise over a hundred cases per day. Consequently, the Government declared a State of Emergency and announced curfew, effective on 26 March 2020 and 3 April 2020, respectively.

At the beginning of the first quarter of 2020/21, the Thai government implemented several restriction measures to contain the outbreak. Restrictions were gradually eased from mid-May 2020 onwards, where signs of recovery began to emerge. Correspondingly, the Stock Exchange of Thailand Index ("SET Index") rose by 21.1% in a range of 1,105.51 to 1,339.03 points. Meanwhile, VGI's share price was trading at a range of THB 5.35 to THB 7.50, reaching its annual high at THB 8.40 on 8, 11 and 12 May 2020. This was mainly due to positive announcement of the Company's full-year financial results, which posted a robust net profit, and the Company's intention to pay dividends to shareholders.

Despite further acceleration in new cases of COVID-19 in several countries, the global equity indices rebounded impressively in the second quarter of 2020/21 against the backdrop of gradual economic recovery, the upcoming US President Election and the possibility of vaccine discovery. However, the SET Index decreased by 8.3% during this quarter after the release of the revised GDP

growth forecast at -8.1% for 2020 – the lowest since the 1997 Asian Financial Crisis – and the growing political tensions in the country. During this period, VGI's share price underperformed the SET Index, declining at a range of THB 6.35 to THB 7.70, reaching its quarterly low at THB 5.70. VGI's share price increased sharply again by 28% from its lowest price on 27 August 2020, following the submission of Kerry Express (Thailand) Public Company Limited ("KEX") filing, declaring its intention to Initial Public Offerings ("IPO") to the Securities and Exchange Commission (SEC).

Global equity made robust gained during the third quarter of 2020/21, bolstered by Pfizer Inc. and BioNTech SE achieving the first authorisation in the world for COVID-19 vaccine and the expectation that Joe Biden might win the US President Election, which signified a positive sign for US-China trade relations. These factors contributed to the rise of the SET Index by 16.2% during this quarter. However, VGI's share price dropped yet again in October 2020 before the sale of THB 1,300 mn shares at THB 6.00

per share by BTS Group Holdings Public Company Limited (“BTSG”). As a result, shareholding of Bangkok Mass Transit System Public Company Limited (BTSC) and BTSG (collectively called BTS) decreased to 51.0% from 66.3%. The proceeds from this big-lot transaction were expected to be used in BTSG’s infrastructure projects and the Eastern Economic Corridor (ECC). Nevertheless, BTS Group expressed its intention to maintain its holding of VGI at no less than 51.0% and continued to position VGI as its Offline-to-Online (O2O) Solutions provider. As a result, VGI’s share price rose during the last two months of this quarter, reaching its quarterly high at THB 7.90 on 26 November 2020. This was mainly driven by the announcement of the Company’s inclusion into the Morgan Stanley Capital International (MSCI) Small Cap Index, effective on 1 December 2020, and positive sentiment from KEX’s IPO of 300mn shares at a price of THB 28.0 per share on 24 December 2020. Despite such gains, this quarter ended with growing concerns over another wave of COVID-19 from 2 new clusters in Tachileik province in Myanmar and the Central Shrimp Market in Samut Sakhon.

Nevertheless, the upward trend of global equity markets persisted into the fourth quarter, thanks to massive stimulus measures across the globe and an accelerated COVID-19 vaccination rollout, leading to mounting optimism for a strong economic recovery. Despite the slower-than-expected distribution of vaccine in Thailand and a new cluster at Bang Khae Market, the SET Index grew by 8.1%, reaching its annual high at 1,589.53 points on 30 March 2021, backed by the Government’s measures to boost the consumption and tourism sectors. Meanwhile, VGI’s share price traded sideways at a range of THB 6.70 to THB 7.25 in this quarter, which is equivalent to an increase of 8.2%. This was mainly due to the Company’s solid financial performance which surpassed its lowest net profit and its intention to pay interim dividend at THB 0.02 per share.

In summary, VGI’s share price was affected from the spread of the Coronavirus during the year. The Company recorded the market capitalisation at THB 62,431.0mn as of 31 March 2021. From 1 April 2020, VGI shares’ average trading volume was 39.9mn shares per day and average daily value was THB 278.6mn (or USD 8.9mn)<sup>1</sup>, an increase of 96.7% and 52.5% YoY, respectively. During the same

period, the SET and SETENTER Indices average trading volumes were 21,689.9mn and 180.2mn shares per day and average daily values were THB 74,248.6mn and THB 898.6mn, or USD 2,376.7mn and USD 28.8mn, respectively.

## 2. INDICES PERFORMANCE COMPARISON

The SET Index increased by 41.0% for the year ended 31 March 2021, a directional trend that was mirrored across other emerging markets. Foreign Investors and local Institutes were net seller by THB 178.7bn and THB 15.3bn, respectively. On the other hand, local investors and proprietary traders predominantly net bought their positions to the tune of THB 168.6bn and THB 25.4bn respectively. The SET Index performed in line with other regional peers such as Nikkei 225 Index (Japan) (+54.2%), Jakarta Composite Index (Indonesia) (+31.9%) and Straits Times Index (Singapore) (+27.6%) over the same period. SET Media & Publishing (SETENTER) increased by 63.3% from 31.45 points on 31 March 2020 to 51.4 points on 31 March 2021.

## 4. OTHER CAPITAL MARKETS ACTIVITY

### 4.1 VGI-W1 Warrants (VGI-W1) Issuance

On 3 July 2014, the Annual General Meeting of the Company's shareholders passed a resolution to issue 858mn units of VGI-W1 to be allocated to the existing shareholders of the Company at no cost with an allocation ratio 1 warrant to every 4 existing ordinary shares. VGI-W1 was issued on 1 August 2014 and has a term of 4 years from the issuance date (Last exercise date and expiration Date is on 1 August 2018). The exercise ratio of VGI-W1 is 1 unit of warrant for 1 ordinary share and the exercise price is THB 14 per share.

On 11 March 2015, the Extraordinary General Meeting of the Company's shareholders No. 1/2015 passed a resolution to pay a second interim dividend in form of cash at rate THB 0.011 per share and stock dividend at rate of 1 new share for every 1 existing share. The XD date (which determines the shareholders eligibility to such dividends) was set as 17 March 2015. To comply with the terms and conditions governing the rights and obligations of VGI-W1, the Company adjusted the exercise price of the warrants, from THB 14 per share to THB 7 per share, and the exercise ratio of the warrants, from 1 warrant per ordinary share to 1 warrant per 2 ordinary shares. That was effective from 17 March 2015 onwards. Subsequently, on 15 July 2016, the Company has amended the warrant exercise ratio from 1:2 to 1:1 by issuing additional warrants to existing warrant holders on the basis of 1 unit per 1 unit of existing warrant.

VGI-W1 has expired on 1 August 2018. The Company has received total proceeds from the exercise of VGI-W1 warrants of THB 8,618mn, or around 72.0% of maximum proceeds.

### 4.2 VGI-W2 Warrants (VGI-W2) Issuance

On 5 July 2018, the Annual General Meeting of the Company's shareholders passed a resolution to issue 1,711mn units of VGI-W2 to be allocated to the existing shareholders of the Company at no cost with an allocation ratio 1 warrant to every 5 existing ordinary shares. VGI-W2 was issued on 11 September 2018 and has a term of 4 years from the issuance date (Last exercise date and expiration date is on 10 September 2022). The exercise ratio of VGI-W2 is 1 unit of warrant for 1 ordinary share and the exercise price is THB 10 per share.

### 4.3 SET50/100 Index Constituent Member

VGI was included as a constituent member of the SET100 Index since the beginning of July 2013. Subsequently, from January 2014 to June 2015, the Company was included as a constituent of the SET50 Index, but was later excluded in July 2015, though it remained in the SET100 Index. However, the Company was excluded from the SET100 Index in January 2018 due to failure to meet free-float requirement. VGI was once again announced as a constituent of the SET50 Index for the period January 2021 to June 2021 following recent periodic review update by SET.

The SET50 and SET100 Indices comprise Thailand's largest 50 and 100 companies by market capitalisation that also conforms to certain turnover and free float conditions. For turnover, the monthly turnover value of an eligible firm must be at least 50% of the average turnover of all listed companies in the SET. For free-float, a minimum threshold of 20% of paid-up capital must be maintained. The index review is conducted every 6 months (in June and December for inclusion in July and January, respectively). With its inclusion into both the SET50 and SET100 Indices, VGI was able to expand potential shareholder base, for instance, by automatically becoming eligible for certain investment funds.

### 5. INVESTOR RELATIONS

The Company places a high priority on investors' access to the Company. The Investor Relations ("IR") Department is responsible for communications between the Company and investors, including shareholders, analysts and potential investors. The IR Department functions as the channel for two-way communications, the first of which is to publicise the accurate, complete and timely information of the Company, which includes business operations, performance and key events that affect the Company's performance. The other aspect is to report the investment community's opinions and suggestions to the Executive Committee and the Board of Directors on a quarterly basis in order to acknowledge (and respond where relevant to) the viewpoints that investors have on the Company.

Key performance indicators are established in order to align the goals of the division with the goals of the Company. In short, these are related to enlarged visibility (such as number of meetings held, number of roadshows attended, website traffic) as well as quality and timeliness of product and service offerings (taking into account product delivery times, response times as well as results from surveys).

In 2020/21, the Company met domestic and overseas institutional buy-side investors a total of 403 investors, of which 252 were domestic buy-side and 77 were overseas investors. Additionally, the Company has maintained its marketing efforts by attending 4 domestic events in 2020/21.

The Company hosted several investor-centric activities, including 4 quarterly earnings review meetings for analysts and fund managers. Additionally, the Company also participated in 'SET Opportunity Day' and 'Thailand Focus 2020: Resiliency to move forward' hosted by The Stock Exchange of Thailand during the year in order to increase its exposure to retail investors and others, who interested in VGI.

The Company continued to hold quarterly earnings review conferences and the webcasts of these are available both on the Company's website within 24 hours from the meeting as well as on the SET website. For 2020/21, the Company not only expects to maintain its communication efforts across all areas but also to increase certain IR activities. For example, the Company has plans to attend domestic and overseas NDRs/conference at least 8 times a year and continue to arrange site visits for investment community.

### PERFORMANCE ANALYSIS (2020/21 vs 2019/20)

2020/21 was marked by an unprecedented global crisis triggered by the COVID-19 pandemic. Thailand, like other countries, was hit hard by the crisis due to numerous nationwide lockdowns, which led to a contraction in consumer confidence and left a huge impact on business and public life. However, the Company managed to rise to the challenge, delivering a solid performance as evident in its 2020/21 net profit at THB 980mn, thanks to the strength of its Offline-to-Online (O2O) Solutions strategy and strategic partnerships, which allowed it to operate with greater flexibility and helped diversify risks through multiple source income.

In 2020/21, the Company's **operating revenue** declined by 38.0% YoY to THB 2,480mn, with our **OOH Advertising** and **Digital Services revenues** contributing 62.1% and 37.9% of total revenue, respectively.

**OOH Advertising segment** was hard hit by the aforementioned crisis. As a result, the Company recorded revenue of THB 1,540mn, a decrease of 46.0% YoY with a utilisation rate at 40.0% in line with our target.

- **Transit media revenue** was THB 1,327mn, a decrease of 39.2% YoY from THB 2,184mn.
- **Office and Other media revenue** was THB 213mn, a decrease of 42.6% YoY from 371mn.

**Digital Services segment revenue** decreased by 18.3% YoY to THB 940mn, mainly due to the low demand on advertising and marketing spending in online advertising and less revenue recognition from project management. Nevertheless, this decrease was partially offset by higher insurance commission and lead generation.

**Other income** was THB 764mn, significantly increased by 156.5% YoY mainly from an increase in gain on sale of investments. During 2020/21, VGI sold 1.0% of its stakes

in Kerry Express (Thailand) Public Company Limited (“KEX”), which is equivalent to a total gain of THB 593mn. Nevertheless, going forward, with the strength of KEX’s operations, the Company intends to maintain its stakes in KEX in order to leverage the rise of e-Commerce through this strategic partnership.

VGI also counteracted the sharp pandemic-related fall in revenue by making extensive cost savings, for instance through reducing maintenance and employee expenses and negotiating discounts with landlords and service providers. Such immediate actions are partially reflected in lower cost of selling, general and administrative (SG&A) expenses.

**Cost of sales** declined by 20.7% YoY to THB 1,544mn in 2020/21. This was attributable to the decrease in revenue-based OOH Advertising segment. **Cost-to-sales ratio** increased to 62.3% (prior year: 48.7%), as a result **gross profit margin** decreased to 37.7% (prior year: 51.3%).

**Selling, general and administrative expenses (“SG&A”)** decreased by 29.0% YoY to THB 926mn. The decrease was primary the aforementioned cost savings and reduce in one-time expenses, which comprised of 1) impairment of investment and assets and 2) expected credit losses. **SG&A to revenue ratio** increased to 37.3% (prior year: 32.6%) due to revenue decrease in higher rate than SG&A.

The Company recorded **share of profit from investments in joint ventures and associates** of THB 338mn (prior year: THB 131mn). The positive result was primarily from the recognition of extraordinary gain from change in ownership interests in the associate due to KEX’s IPO of THB 513mn. Nevertheless, the share of profit was mainly offset by the loss from MACO Group.

**Net gain from extraordinary items** was THB 795mn, consisting of 1) gain from change in ownership interests in the associate due to KEX’s IPO of THB 513mn and 2) gain on sale of investment in KEX of THB 468mn. This was mainly offset by 3) impairment of MACO assets and international business operation of THB 185mn. These consequently led to a recognition of **net profit** of THB 980mn with a **net profit margin** of 39.5% (prior year: 35.6%). **Net profit from operation** was recorded at THB 184mn and **net profit margin from operation** of 7.4%.

## FINANCIAL POSITION

## Risk Management

---

<b>4.1</b>	Risk Management Policy and Plan	<b>48</b>
<b>4.2</b>	Risk Factors to the Business Operations	<b>50</b>

# 4.1 RISK MANAGEMENT POLICY AND PLAN

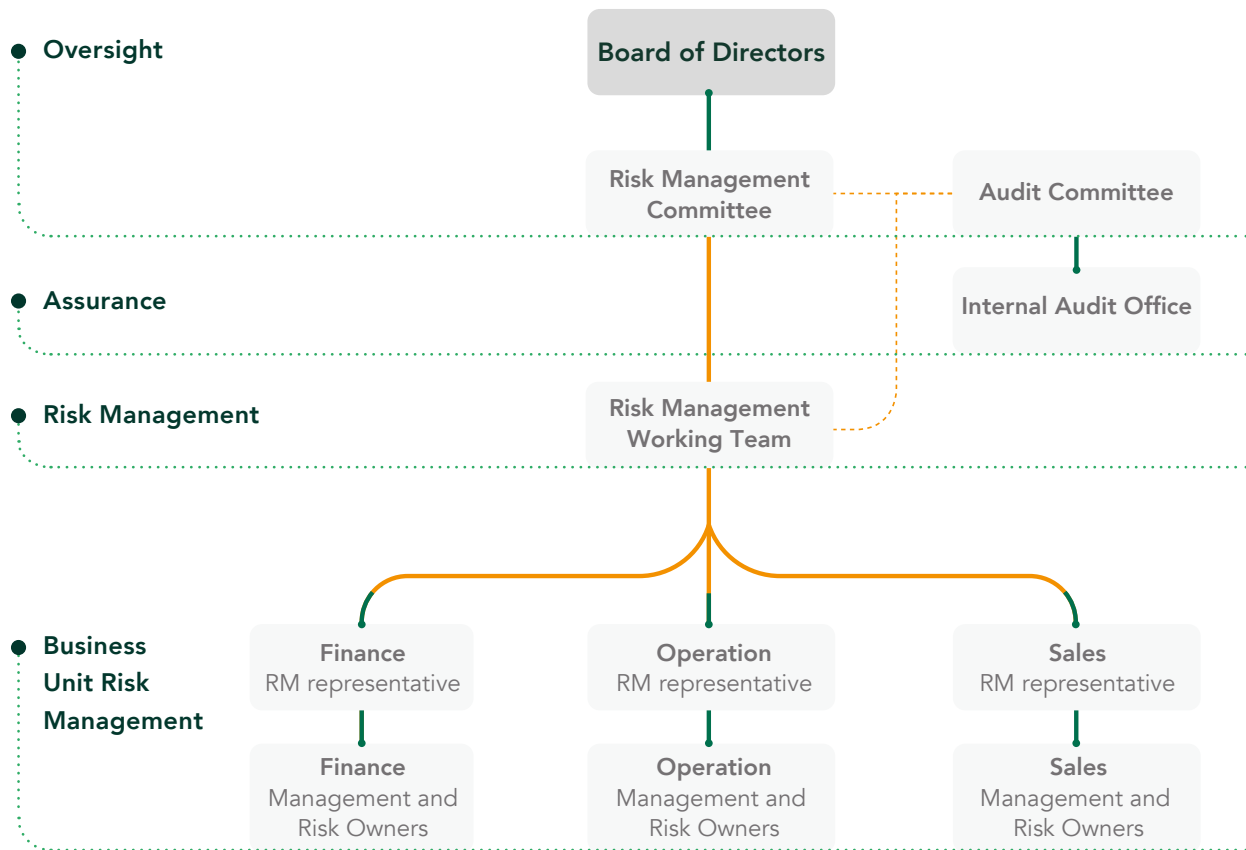

## Risk Management Policy

The Company recognises the importance of risk management as a key mechanism that will help the Company to achieve its targets under its business plans, strategies, and visions, the changing business environment and factors which may affect the business operation. The risk management would also reduce obstacles and/or losses which may occur in profits, business operations and confidence of investors and stakeholders to the Company. Therefore, the Company has set up and developed the Enterprise Risk Management Policy that is consisting of risk management activities, monitoring and reviewing the risk management structure of the organisation.

## Risk Management Process

## Risk Management Structure

The Board of Directors established and appointed the Risk Management Committee which consists of an independent director sitting as the Chairman and the chiefs from each command line as members of the Risk Management Committee. The Risk Management Committee is assigned to issue policies, measures and guidelines of the risk management. And to monitor, follow up and recommend the process of risk management to the Company to ensure a robust and efficient risk management. The Risk Management Working Team (“**RM Working Team**”) consists of representatives from each business unit. The RM Working Team will support the Risk Management Committee by ensuring that all organisational risks are under the risk appetite approved by the Board of Directors. And the Risk Management Committee has to report the key performance of enterprise risk management to the Board of Directors yearly. Furthermore, the Company assigned the risk management responsibilities to all executives and employees of the Company. This is the core principle of risk management and to build the risk management as the Company’s culture.

## 4.2 RISK FACTORS TO THE BUSINESS OPERATIONS

The Company reviews and identifies the risk factor on an annual basis under the following process.

The Company's risks are analysed and divided into 4 dimensions, namely, (1) strategic risks, (2) operational risks, (3) financial risks, and (4) compliance risks. Below are the significant, but not exhaustive, risk factors that the Board of Directors viewed that could have material adverse effects on the Company's current business operations.

### 1) Reliance on a concession agreement with BTSC for business operation

Core revenue of the Company derives from providing advertising media services and merchandising areas in BTS system. For the fiscal year ended 31 March 2021, the revenue from advertising media services and merchandising areas in BTS system was approximately THB 1,327 million, equivalent to 53.51 percent of the total revenue according to the consolidated financial statements. Therefore, if the Company's rights to manage advertising media and merchandising areas obtained from BTSC is somehow terminated, it may cause a material adverse effect on the company's business, financial position, and operating results.

The License to Manage Marketing Service in BTS Skytrain System Agreement between the Company and BTSC (the "BTSC License Agreement") has a term of 17 years ending 4 December 2029 or may be terminated upon an occurrence of any of the following events:

- (a) BTSC may exercise its rights to terminate the agreement in case of any of the following events, i.e. (1) the Company fails to pay concession fee to BTSC within 30 days after due date; (2) the Company commits any material breach and fails to remedy within the specified period; or (3) the Company is insolvent or becomes bankrupt.
- (b) Termination of the Concession Agreement between BTSC and the BMA. The BMA has sole rights to terminate the Concession Agreement only on any of these two grounds, i.e. (1) BTSC is under receivership in the bankruptcy case; or (2) BTSC is deliberately and continuously in breach of any material term of the Concession Agreement, unless such breach is remedied within the specified period. The said two grounds for terminating the Agreement are out of the Company's control.

In the past several years, the Company has managed this risk factor by diversifying the sources of revenue to mitigate risk. As a result, the proportion of revenue generated from business in reliance on the BTSC License Agreement tended to decrease, reflecting from the growth of revenues from online and digital marketing service business and E-payment business. In the fiscal year 2020/21 ending 31 March 2021, the Company has increased revenue from the digital services business at 37.9% of the total revenue in the consolidated financial statement.

## 2) Reliance on major media agencies

The Company's key customers can be categorised into 2 groups, i.e. media agencies and brand owners. As a normal course of media or advertising service business, brand owners usually engage media agencies to provide advertising strategic planning, including advertising budget and media type selection. This ensures that the advertising or marketing budget will be well spent to maximise the benefits of raising brand awareness and reaching the target audience with precision. For the fiscal year ended 31 March 2021, the Company generated revenue from providing services for media agencies of approximately THB 1,057.65 million, equivalent to 63.97 percent of the total revenue from the Company's media service. The top 5 media agencies contributed 78.45 percent of the total revenue from service for media agencies. Therefore, if the Company could not maintain a good long-term business relationship with media agencies, it may cause a material adverse effect to the Company's business, financial position, operating results, and business opportunity.

Apart from consistent customer relationship management through regular activity arrangements to build good customer relationship, the Company manages the risk by forming a team to support and work closely with media agencies. The team will plan advertising strategy and budget for the brand customers to maximise efficiency and strengthen the relationship between the Company and the agencies to grow together in the long run. In addition, the Company has the policy to increase the proportion of the brand owner customers and expand to the Chinese market to mitigate the risk of being dependent on media agencies. Currently, VGI increased the proportion of revenue derived from brand owner customers from 36.03 percent in the past year to 31.58 percent. The increase resulted from the expansion of online services and implementation of the programmatic system as an additional channel to purchase or sell media of the Company. The new implementation enables the brand owner customers to access the advertising media of the Company more conveniently.

## 3) Media business is varied by the overall economic situation

The overall economic situation of the country is a key factor that directly impacts the growth of businesses. Advertising media business is varied considerably by the economic situation. When the country's economy is in recession or slowdown, either by domestic or global factors or political instability, it usually leads to a downturn of various sectors, such as manufacturing, export or unemployment problems. Such factors negatively affect income, purchasing power, spending behavior and consumer confidence. These effects directly impact the marketing needs and the carefulness in allocating the advertising budget of brand owners, which may cause an adverse effect on the overall advertising media industry and the Company's business, financial position and operating results.

Furthermore, the spread of COVID-19 in 2020 and the worrying of the new wave have severely impacted the media industry. The economic recession has plunged the spending in the media industry undoubtedly. And it has also brought in the new lifestyle and consumer's behavior. The new normal world after COVID has begun.

The Company managed the risk factor by updating the Company's advertising media to be up-to-date and integrating online and offline media by utilising the big data acquired from various platforms in VGI ecosystem and cooperate with the creative agencies and partners. This allows VGI to develop such big data into consumer insights enabling VGI to present the brand's products and services to target audience with precision and assess the result efficiently. This is to ensure that the advertising budget of brands, although reduced by the business stagnation, would still be spent on the Company's advertising media. In the past year, the Company has invested in and partnered with other businesses such as the establishment of Rabbit Cash Company Limited ("Rabbit Cash"), a joint venture with "AEONTS" and "HUMAN" to expand into the digital lending market and the acquisition of Asia Direct Insurance Broker Co., Ltd. ("ADB"), a leading omnichannel motor insurance brokerage to grow the insurance customer's base of Rabbit Group instead of the organic expansion. These investments will complete the Company's ecosystem and diversify the sources of revenue, which would reduce the impact from the risk of economic fluctuations on the advertising media industry.

In addition, the Company also used this opportunity to change the Company's out-of-home media platform in the prime locations from static signage to digital screens to add more value to the media of the Company once the situation resolved. The strong diversification of revenue sources from online and digital marketing business of Digital Lab, E-payment and insurance brokerage business of Rabbit Group, and logistics business of Kerry played an important part in minimising the economic impacts on the Company in this crisis. These businesses benefited from the fact that people turned to use e-commerce platform more.

#### **4) Business expansion**

The Company has adopted a strategy to continuously expand into a new business regime to support and yield high benefits to VGI Group's business operations at both domestic and international levels. Such expansion is expected to strengthen its existing business and enhance its opportunity to achieve long-term sustainable growth. During the 2020/21 fiscal year, the Company has invested or jointly invested in businesses in March 2021 as follows;

- Rabbit Care, the leading online brokerage for insurance and banking products, a subsidiary in VGI Group, acquired 100% shares in Asia Direct Insurance Broker Co., Ltd. ("ADB"), a leading omnichannel motor insurance brokerage. This is to expand its motor insurance vertical through online and telesales and promote its digital platform to a wider audience. This is a step-stone to strengthen the ecosystem towards the vision of becoming the first choice for insurance and banking advise. Moreover, Rabbit Care expects synergies from shared IT services, operational excellence, and top line expansion through cross selling.
- BSSH, a subsidiary in VGI Group, AEONTS, and HUMAN, announced the establishment of Rabbit Cash Company Limited ("Rabbit Cash"), a joint venture in digital lending market who creates, an easy solution for consumers to access funding at their fingertips nearly instantaneously.

The expansion of each new business requires considerable amount of fund and resources. At times, there might be certain limitation to information required prior to the decision making and working time. If the business expansion could not generate return as projected, it could have an adverse effect on the company's business, financial position, and overall operating results. Thus, the Company has a policy to manage this risk factor by selecting strategic partners who have potential, strength, expertise, and experience in the business, including engaging financial, accountant, legal, and tax advisors to conduct due diligence and providing feasibility study prior to making decision in each investment, taking into account the interests of the Company and its shareholders, with an emphasis on the additional benefit that the Company will receive from the synergy which would derive from the investment.

#### **5) Risk of the cyber security**

The cyber threats are the concern for the organisation around the world. The concern has increased especially when the consumers and organisations rely more on the digital tools from smartphone, computer or tablet devices. The cyber attack may impact the company on the financial loss, reputation and, customer's trust.

The customers' data and other data are the key of VGI which enable the Offline-to-Online ("O2O") Solutions and the synergies of the ecosystem. The Company has developed the measures to improve cyber security, covering the policy, organisation management, and technology to manage cyber security. These factors could impact the Company's activities, e.g. issuing and reviewing of the IT Policy on a yearly basis, restriction the right to the devices and IT network of the employees, firewall installation to separate the internal and external network, IT audit for software, hardware and network. Moreover, the Company received ISO27001:2013, number CERTIFICATE IS 738819 dated 25 December 2020.

#### **6) Technological advancement and rapid change of consumer behaviors**

Technology advancement plays a vital role in facilitating and changing people's way of living daily life widely and rapidly. Examples include the communication via text messages instead of physical discussion, purchase of products and services through an online channel instead of physical stores, or consumption of news or entertainment programs via smart phone or tablet instead of television

or radio, so-called “Digital Disruption”. This phenomenon was boosted by the COVID-19 outbreak which all sectors had to adopt work-from-home and social distancing measures. All of which have become a condition that force people to change their way of living to rely more on technology and digital means. For example, meeting had to be via video conference, ordering food from the restaurant had to rely on delivery application. These practices have become a new normal which the business sectors must adapt themselves to handle such sudden change. If the business adaptation is not timely, it could have an adverse effect on the company’s business, financial position, and operating results.

The Company’s strategy are to maintain the best-in-class quality of the products and services, to create distinctive media and digital services and to, synergise the offline and online services. The synergies were from analysing data collecting from the different platforms of VGI Group. VGI has also developed and created new products and services to the market. This will help us retain as the leader of the media industry.

#### **7) Business operation of the Company must rely on personnel with specialised expertise and good customer relationship**

The Company’s business, as a service business needs to rely on its personnel to contact and offer products to media agencies and brand owners. Therefore, the personnel in sales and marketing divisions and the Company’s executives need to retain a good relationship with the media agencies and brand owners. In addition, management efficiency to optimise the usage of the advertising space and creativity of advertising media formats that meet brand owners’ objectives and targets require executives and personnel with knowledge, expertise, and experience in media planning and management. Therefore, if the Company cannot retain the executives and personnel in the organisation, it may have a material adverse effect on the company’s business, financial position, operating results, and business opportunity.

The Company managed this risk factor by continuously prioritising the management and development of the Company’s human resources. The personnel must work together to constitute an on-the-job training that enables the personnel within the same team to work interchangeably. In addition, the Company provided hard-skills and soft-skills training courses to its personnel and recognised the importance of building a career path for its personnel. The Company also gives priority to the appropriate remuneration, welfare and benefits given to its personnel taking into account the Company’s operating results and individual employee’s performance. Besides, the Company has prepared a succession plan for chief level employees to build the next generation of executives to ensure stability and enhance growth of the organisation in a long run. Further, the Company has a plan to adopt a talent management program to retain high potential employees to share long-term growth with the Company.

#### **8) Change in laws relating to business operations**

Enactment of new laws or amendment to laws concerning business operations of VGI Group may have an adverse effect on the business, financial position and operating results of the Company if the Company and/or its subsidiaries are unable to promptly adjust its business operations to comply with the applicable laws.

To manage this risk factor, the Company has organised a team to continuously monitor the development of the laws concerning business operations of VGI Group. The team regularly attends seminars and/or trainings held by governmental and private organisations with respect to the laws relating to business operations of VGI Group. This ensures that the Company’s personnel have correct knowledge and understanding regarding the business operation laws. In the fiscal year 2019/20, the Company has prepared to comply with the personal data protection laws by engaging a leading legal advisor to conduct due diligence and gap analysis. The engagement also includes providing advices regarding supplementing measures to ensure that the use and process of personal data enhance the efficiency and effectiveness of media service to precisely reach the target audience and comply with the applicable laws in all respect.

## Legal Dispute

As of March 31, 2021, the outstanding legal disputes or lawsuits which involve the Company and/or the Company's subsidiaries that may have material adverse effect to the business operation of the Company or the Company's subsidiaries, excluding those arising from the ordinary course of business of the Company and/or the Company's subsidiaries, is as follows:

### 1) Dispute between Midas Global Media Co., Ltd. ("Midas") and the Company on the ground of breach of contract

**Trial Commencement** : June 25, 2018 – Thai Arbitration Institute, Office of the Judiciary

**Date and Venue** : May 5, 2020 – Civil Court

**Dispute** : Midas, which was a joint venture company formerly owned by the Company and Deelight Multimedia Co., Ltd. ("**Deelight**"), claimed that the Company was in breach of the Shareholders' Agreement of Midas dated February 5, 2014 (the "**Shareholders' Agreement**") which was executed between the Company and Deelight and claimed for damages in the amount of THB 1.004 billion with an interest at the rate of 7.5 per cent per annum.

**Result** : On February 7, 2020, the arbitral award dated February 5, 2020 rendered by a majority of arbitration tribunal (2 against 1) was delivered to the Company. According to the arbitral award, it was found that the Company was in breach of contract and ruled the Company to pay damages to Midas in the amount of THB 579 million with an interest rate of 7.5 per cent per annum from the date on which the case was submitted (i.e. June 25, 2018) until it has been fully paid. However, the Company disagreed with the arbitral award and submitted a motion to the Civil Court on May 5, 2020 to set aside the arbitral award.

**Progress** : On April 2, 2020, Midas filed a motion to the Civil Court for enforcement of the arbitral award requesting the Company to comply with the arbitral award.  
: On May 5, 2020, the Company filed a motion to the Civil Court to set aside the arbitral award.  
: On September 30, 2020, the Civil Court allowed that the motion for enforcement of the arbitral award filed by Midas and the motion for setting aside the arbitral award filed by the Company be combined into one case. The case is now under the process of witness investigation by both sides.

### 2) Civil dispute between Midas (as the plaintiff) and the Company together with MACO (as the defendants) on the ground of tort

**Trial Commencement** : February 14, 2018 – Civil Court

**Date and Venue**

**Dispute** : Midas filed a lawsuit with the Civil Court against the Company and MACO on the ground of tort claiming for compensation in the amount of THB 24 million with an interest rate of 7.5 per cent per annum as a result of the entry into the service agreement for advertising airtime on 4 LED billboards dated January 31, 2017 between Midas and MACO

**Result** : On September 12, 2019, the Civil Court dismissed the case since the fact attested by the plaintiff could not establish that the Company and MACO was in fraudulent to cause trade damage to Midas, and therefore, it was not a tort committed by the Company against Midas.

**Progress** : On January 20, 2021, the Court of Appeal upheld the decision of the Court of First Instance.

### 3) Civil dispute between the Company (as the plaintiff) and Mr. Surachate Lucksameepong ("Mr. Surachate") with 3 companions (as the defendants) on the ground of breach of reciprocal contract

**Trial Commencement** : May 5, 2020 – Civil Court

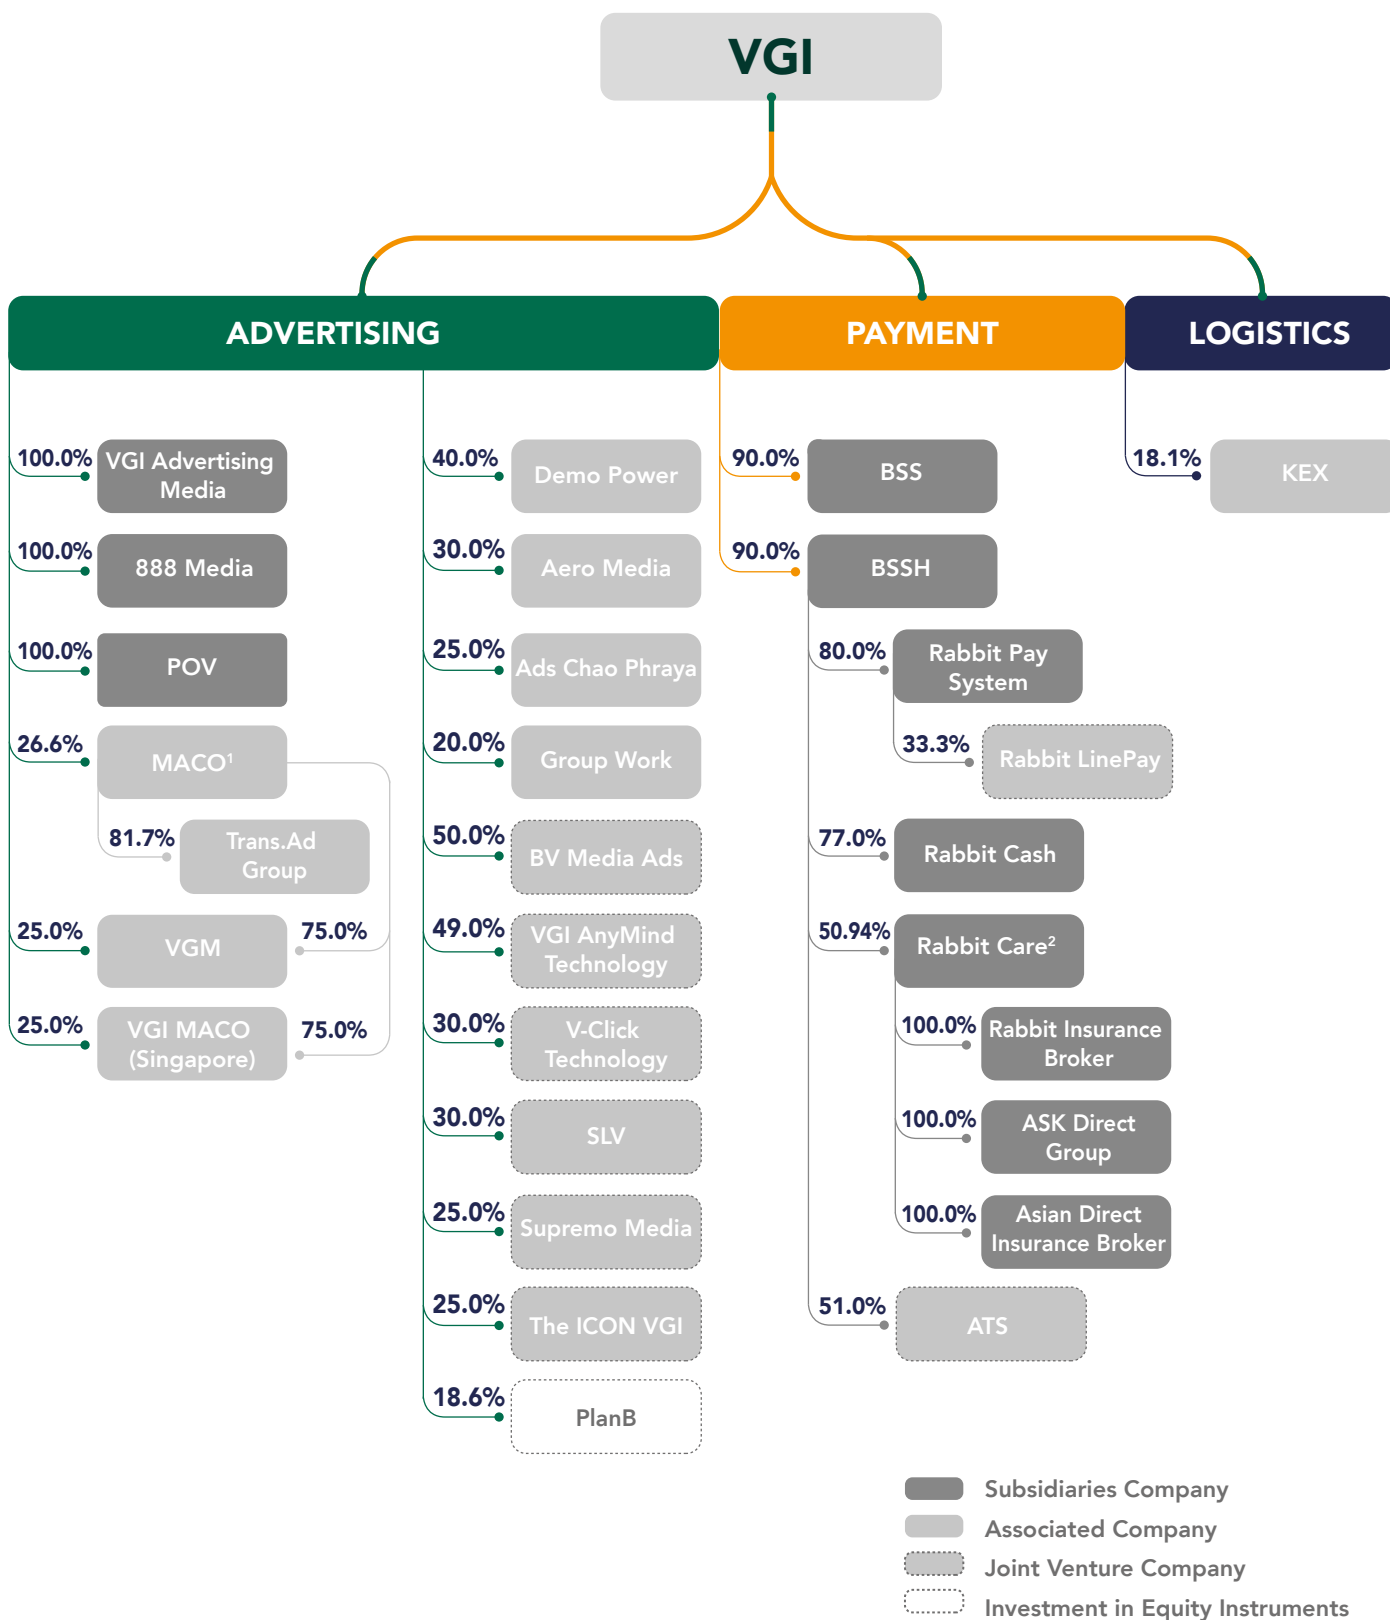

**Date and Venue**

**Dispute** : The Company filed a lawsuit with the Civil Court against Mr. Surachate, Deelight, and Deelighting International Co., Ltd. on the ground of a breach of reciprocal contract and claimed for damages in the amount of THB 1.181 billion with an interest rate of 7.5 per cent per annum.

**Result** : -

**Progress** : On December 3, 2020, the Civil Court dismissed the case with a view that the case should first be gone through the arbitration.  
: On March 2, 2021, the Company filed a motion to appeal the Civil Court's order to dismiss the case. Currently, the case is being considered by the Court of Appeal.

## Corporate Governance Policy

The Company places an importance on corporate governance with a strong belief that good corporate governance is an important factor to promote and support the business to sustainably grow. The Company has thus implemented the Corporate Governance Policy covering various aspects, e.g. (1) rights of shareholders, (2) equitable treatment of shareholders, (3) roles of stakeholders, (4) disclosure and transparency, and (5) responsibilities of the Board of Directors, pursuant to the Principles of Good Corporate Governance for Listed Companies of the SET and the Good Corporate Governance for Listed Companies 2017 issued by the Office of the SEC and the Thai Institute of Directors. The Company reviewed and developed its Corporate Governance Policy and Code of Conduct on an annual basis to ensure that such criteria is sufficient, appropriate, and consistent with the Company’s nature of

business. The Company published such Policy on its website at [http://www.vgi.co.th/sustainability/economic/Corporate Governance Report on the Past year](http://www.vgi.co.th/sustainability/economic/Corporate%20Governance%20Report%20on%20the%20Past%20year).

## Section 1 Right of Shareholders

The Company gave priority to the rights of shareholders as the owners of the Company by encouraging and supporting all groups of shareholders, whether retail investors or institution investors, to exercise their rights, with details as follows:

- (1) Disclosed important information relating to the performance and key transactions, including the quarter and annual performance through disclosure channel of the SET and the Company’s website to facilitate the shareholders so that they were able to access the performance of the Company by various channels in a timely manner; and
- (2) With respect to procedure in relation to the annual general meeting of shareholders:
  - In 2020/21, the Company held the 2020 Annual General Meeting of Shareholders on 16 July 2020, which was within 4 months from the end of the Company’s fiscal year. The date of the meeting was not during long holidays or on any public holiday. The meeting was held at Eastin Grand Hotel Sathorn Bangkok, Surasak Ballroom, which was convenient to travel to. The meeting room was large enough to support the number of shareholders, with strict security system;

- The process of calling and convening the meeting was in accordance with the laws and in accordance with the guidelines stipulated by the SET and the Thai Investors Association, as follows:
- Prepared the invitation and meeting materials in Thai and English to support foreign shareholders, in which the invitation stated venue, date and time of the meeting together with the agenda items and sufficient supporting documents, including objectives, reasons, and necessity of each agenda, as well as opinions of the Board of Directors, so that the shareholders had sufficient time to review them prior to the meeting; the Company published the invitation, both in Thai and English versions, on its website 30 days prior to the meeting and delivered the same together with related documents, including the annual report, to the shareholders at least 21 days prior to the meeting;
- Arranged a document verification and registration process prior to the date of the meeting to register and delegate voting rights to independent director, as such, the registration and proxy need not be submitted at the shareholders' meeting that encouraged the institution investors and/or shareholders holding shares through custodian to attend the meeting; in addition, the Company prepared duty stamps to serve at no cost for shareholders who wished to authorize a proxy or the Company's independent director to attend the meeting and vote on their behalf;
- Directors, members of sub-committees, executives from all main command lines, and the Company Secretary attended the meeting to respond to enquiries and listen to the shareholders' opinion;
- Engaged legal advisor and auditor to respond to shareholders' enquiries and arranged for a representative from a law firm as an intermediary to join minority shareholders to witness the vote counting process which there was no minority shareholder volunteered to be the witness in the vote counting;
- Utilized barcode system in the registration and vote counting for transparency, convenience, quickness, and efficiency of the meeting; in addition, the shareholders were able to register to attend the meeting all throughout the course of the meeting to exercise their right to vote on the agendas that had not yet been considered and resolved;
- Prior to proceeding the agendas, the secretary to the meeting had introduced to the meeting the Board of Directors, executives, the Company's auditors, and legal advisor present at the meeting and informed the meeting of the criteria for voting and vote counting procedures;
- During the meeting, the chairman of the meeting provided equal opportunities to all attendees to express their opinions and ask questions that were relevant to the agendas, and answered the questions pertinently and provided adequate time to shareholders for discussion;
- For agenda in respect of the election of directors, the shareholders were arranged to vote for each director individually and separately, in which directors who must retire by rotation at the 2019 Annual General Meeting of Shareholders had temporarily left the meeting room so that the meeting had the opportunity to freely discuss the relevant matters; and
- Minutes of the meeting were correctly and completely recorded, with numbers of approved, disapproved, and abstained votes in every agenda that required voting, including recording a summary on material and relevant opinions, enquiries, and answers in each agenda; in addition, the Company published the resolutions through the disclosure channel of the SET within the same day of the meeting, and submitted the said minutes to the SET, including publishing on the Company's website within 14 days from the date of the meeting.

## Section 2 Equitable Treatment of Shareholders

The Company treated all shareholders equally, irrespective of gender, age, nationality, religion, beliefs, and political opinions and regardless of whether they are minority, majority or institutional shareholders, with key details, as follows:

- (1) In the 2019 Annual General Meeting of Shareholders, the Company opened an opportunity for its shareholders to exercise their rights to propose agenda and nominate candidate for election as a director of the Company in advance, between 24 December 2019 – 31 March 2020. Shareholder(s) who individually or collectively hold shares no less than 5 percent of the Company's total voting rights, were entitled to propose agenda and nominate candidate to be elected as the Company's director at the annual general meeting of shareholders. The Company has publicized such criteria on the Company's website and announced the same on the SET website.
- (2) To maintain the rights of shareholders who could not attend the shareholders' meeting in person, the shareholders may appoint his/her/its representative or the Company's independent director, i.e. Assoc. Prof. Jaruporn Viyanant, Mrs. Maneeporn Siriwatanawong, or Mr. Kiet Srichomkwan to attend the meeting and vote on their behalf by providing Proxy Form B which explicitly and clearly set out details of authorization.
- (3) To protect shareholders' rights and procure equitable treatment to all shareholders with respect to the access to the Company's information, the key information in relation to the operation and important transactions, including the invitation to the shareholders' meeting and all supporting materials, were prepared in Thai and translated into English and publicized to the shareholders and the public via the Company's website: <http://investor.vgi.co.th/th/downloads/shareholders-meeting> or the Investor Relations Department at telephone no. +66 (0) 2273 8611-15 ext. 1513 or via email at [ir@vgi.co.th](mailto:ir@vgi.co.th).

- (4) The Company prohibited the directors, executives and employees of VGI Group, including other related persons from using inside information for the benefit of the trade of securities of the Company, its subsidiaries, and associated companies pursuant to the determined criteria and procedures, and prohibited the same persons from disclosing inside information to outsiders or non-related persons before such inside information has been publicly disclosed via the channel of the SET. In addition, the directors and executives of the Company were required to report the interests of themselves and their related persons in accordance with the defined criteria and procedures, in order for preventing any transaction that may create a conflict of interest. Interested directors and/or executives are prohibited from attending the meeting and/or cast their votes in the respective agenda. This was to ensure to the shareholders, public, and competent government agencies that the Company had undertaken actions based on fair and equitable treatment to all shareholders.

## Section 3 Roles of the Stakeholders

The Company acknowledges and take into consideration the roles and benefits of all stakeholders involving in the Company's business, such as shareholders, customers, employees, business partners, competitors, creditors, public, and community. The Company therefore gives priority to the rights of all groups of stakeholders by treating each group of stakeholders properly, equitably and fairly. The Company believes that good relationships with all groups of stakeholders play an important role in the sustainable development and long-term success of the organization. The details of which are as follows:

- (1) The Company has set, in writing, the stakeholder treatment policy and guidelines and disseminated the same to its directors, executives and employees for their acknowledgement and adherence, to ensure that all stakeholders will be treated fairly. The treatment must be suitable to the stakeholders' needs, with sufficient communication channels. The Company's key policies and guidelines regarding the rights of stakeholders are as follows:

- **Shareholders** Shareholders, as the owners of the Company, are entitled to be treated fairly and equitably in accordance with the shareholders' rights prescribed by laws and the Company's Articles of Association, including the rights to attend a general meeting of shareholders, the voting rights, the rights to express their opinions independently, and the rights to acquire fair return.

## Recruitment and Human Resources Development

Every employee is considered a valuable resource that will allow VGI Group to achieve its goals and business plans. VGI Group, therefore, formulates human resource management policies in terms of recruitment and laying out guidelines for skills and competencies development for our employees to retain quality employees. Along with the promotion of creating awareness of being an important part of the VGI Group as follows:

### Recruitment

VGI Group places the importance of human resources development, starting from the recruitment process by adhering to the principle that the selection process must be transparent and is conducted through equality and fairness (Merit System). This is done by setting up with certain sets of qualifications such as specifying educational qualifications, work experiences, expertise, and other requirements of each position. The qualified candidates will be selected according to established methods such as written test, professional aptitude test, and/or interview with supervisors of related fields to obtain qualified employees who are suitable for the positions.

Nonetheless, when there are vacancies or new openings, VGI Group has a policy to hire or recruit qualified internal employees before hiring external candidates. This excepts the situation that there are insufficient employees, or the position needs an expert in a specific area that does not allow internal recruitment.

In addition, all new employees will attend an orientation. This will allow all the employees to be aware of the vision and mission of VGI Group, as well as guidelines and regulations through human resource management of VGI Group, to be able to understand their roles and responsibilities, and to be able to achieve their work objectives.

### Training and Development

VGI Group places the importance of the human resources development by providing internal and external training, which will consider appropriate training for VGI Group's business. The training considers the competency assessment results that the Company has set as a policy and guideline to support the operation to be more efficient and for the organisation to achieve the vision, mission, and goals. There are three training program types as follows:

- (1) Core Course is a programme designed to increase knowledge and skills to increase the efficiency in the working environment and create good morals

- (2) Management Course is a programme designed for supervisors which is about work management and management of subordinates
- (3) Functional Course is a programme related to the job scope of the employees

During 2020/2021, the Company has conducted over 32 programmes with the main programmes such as (1) "Anti-Corruptions and Laws Related to the Use of Personal Data" to enhance knowledge and understanding of the important corruption measures and guidelines as well as the use of personal information for the Company's operations to be corruption-free and in accordance with the law on personal data protection (2) Programmes related to organisational risk management for the Risk Working Committee which comprised of the representatives of each business unit. This allows the Risk Working Committee to evaluate and manage risk from operations of each business unit efficiently and thoroughly by doing joint training with BTS Group.

#### **Fair Treatment to All Employees**

VGI Group places the importance of fair treatment of all employees of the organisation. Starting from the recruitment process, appointment, and appropriate promotions to be suitable with duties and responsibilities based on the knowledge, skills, and potential of the employees without any bias or using a kinship system to measure the performance. Moreover, VGI Group also provides opportunities for employees at all levels to express their opinions and suggestions to the operational guidelines, to support participation on the development and improvement of the organisation's operations.

In addition, the Company also manages the Human Rights and Labour Practices in accordance with the Human Rights Policy of the Company, which was approved by the Board of Directors' Meeting No. 3/2021 on 23 March 2021.

#### **Communication of Employees' Opinions**

To acknowledge the satisfaction or the level of happiness in officiating the duties of each employee, VGI Group has set out an Employee Satisfaction Survey and an Employee Engagement Survey to gather opinions and suggestions of all levels of employees as well as a 360-Degree Survey for the management level. Such data will be used to improve the efficiency in managing the organisation for both short term and long term. The Company also has

set out rules for filing complaints for employees to use in filing complaints, to be a channel to resolve grievance and problems of employees from equality and fairness of their work environment. Moreover, the Management also organises regular meetings to exchange opinions between the Management and employees. This will bring the organisation to its goal of working in the same direction with efficiency. VGI Group is confident that communication and exchanging of opinions and experiences in the workplace for all the employees will lead to good relationships between employees of all levels.

#### **Good Quality of Life in Workplace**

VGI Group places the importance of the quality of life in the workplace for its employees, as this will enable the employees to work with full potential and efficiency. Thus, VGI Group is attentive in taking care of the workplace to be secure and hygienic both in terms of sourcing for standardised materials, tools, and office equipment to be align with the ergonomic concept and does not have a negative effect on the body, does not create pollution, as well as creating the appropriate environment and keep the workplace hygienic for good welfare and health of its employees. Moreover, VGI Group also conducted health check-ups for its employees every year, to maintain and promote good health sustainability for its employees. In the case that a certain event occurs that affects the health of the employees, VGI Group is ready to take action to rectify the situation immediately, as well as campaigning and educating employees to maintain good health.

In addition, VGI Group recognises the amount of workload in each business unit to be in accordance with the existing number of employees. Thus, if the number of employees in each unit is insufficient with the workload, VGI Group will hire new employees to fill in with the additional positions and workloads, which will then create a better quality of life for the employees.

#### **Good Management System and Cooperation**

VGI Group sees the importance of working system that allows continuous process from the beginning until the end and creates quality results, reducing and eliminating conflict in the workplace. VGI Group then encourages each business unit to prepare an operation manual to work between each business unit in the organisation. The Company has published this operating manual via the intranet and the manual is regularly reviewed and revised as deemed

appropriate. Moreover, VGI Group also supports the good working culture and environment by focusing on creating friendliness between employees and the Management. So that employees of all levels can feel that they are parts of the family which will enable them to be happy both mentally and physically when coming to work.

### **Building Good Relationships between the Management and Employees**

VGI Group places importance of building good working relationships between the Management and employees as this will positively affect working together. VGI Group regularly hosts activities between employees and the Management such as New Year parties and Buddhist ceremonies. VGI Group believes that employees relationships activities can be a key factor in developing good relationships of the Management and employees to be bonded as one and allow happiness in working, which will bring the organisation to the goal by working in the same direction efficiently.

### **Cultivating Good Morales for the Organisation and Society**

For the employees to adhere and for the benefit of good discipline of the majority, when any employee circumvents or violates the work regulations, that employee will be deemed to have committed an offence. An offence will be considered and taken any corrective measures according to work regulations as deemed appropriate. This is done by adhering to the principle of good governance (Corporate Governance) that is set out by VGI Group as a framework that the Management and employees strictly follow. VGI Group believes that developing employees to be good and talented people will help the organisation grow stably and sustainably. Such framework will ultimately enhance the quality of the society as a whole.

Moreover, VGI Group cultivates a culture of social, community and environmental care within the organisation. Thus, VGI Group has set up a policy of cost-effective energy consumption and conservation of natural resources to instil and create awareness among employees to reduce unnecessary energy consumption and the use of natural resources for its maximum benefits. In this regard, VGI Group has actively supported and encouraged employees at all level to participate in the matter seriously by setting out guidelines such as reducing paper usage by using two-sided paper, reduce toner consumption by reducing colour printing, and reducing energy consumption by turning off un-used lights during lunch break, for example.

### **Safety and Hygiene in Workplace**

VGI Group pays attention to employees' safety and hygiene and all related parties, which is considered most important. Therefore, VGI Group has conducted 1. Occupational Safety, Health and Environment Guidelines<sup>1</sup> 2. Appointed Occupational Safety, Health and Environment Committee (OSH&E Committee)<sup>2</sup> who has the main responsibilities to follow according to the Occupational Safety, Health and Environment Guidelines<sup>(2)</sup> 3. Appointed Safety Committee<sup>3</sup> 4. Appointed Safety Officers for Management Level<sup>4</sup> 5. - (9) Not possessing any characteristic which disables the expression of independent opinions with respect to the Company's business operation.

Once appointed as an independent director, the independent director may be assigned by the Board of Directors to make collective decision on the operation of the Company, its parent company, subsidiaries, same-level subsidiaries, major shareholders, or controlling persons.

### **Orientation for New Directors**

The Board of Directors has decided to organize orientation for new director to communicate the summary of visions, missions, and values of the Company, including providing documents for new director to complement his performance as a director of the Company.

### **Term of Office of Directors**

In every annual general meeting of shareholders, one-third (1/3) of the directors, or the number nearest to one-third if the number is not a multiple of three, must retire from office. Retiring directors may be re-elected.

### Nomination of Chief Executive Office

The Nomination and Remuneration Committee is responsible for the nomination of a person to be the Chief Executive Officer following to the qualifications specified by the Company, by considering the Deputy Chief Executive Officer and the Chief Executive Officer within the organization first. If there is no qualified person within the organization, then the Nomination and Remuneration Committee will nominate external candidate to propose to the Board of Directors for appointment. The candidate shall possess qualifications at least as follows:

- Completely qualifying to be an executive of a listed company according to the Securities and Exchange Act B.E. 2535 (1992) (as amended) and the relevant notifications of the SET and the Capital Market Supervisory Board;
- Possessing visions with respect to the management of large organization and management of media business or related businesses; and
- Possessing leadership, being decent interpersonal relations and able to contact and cooperate in an international level, domestically and internationally.

### Succession Plan

The Company has adopted a succession plan for executives with objectives (1) to subordinate personnel in the important positions in order for an uninterrupted operation, (2) to respond to the business plan of the Company concerning the planning and preparation of manpower, and (3) to enhance the career path opportunity and encourage the employees as the Company has a policy to prioritize the nomination of the personnel within the organization. In this regard, the Company has considered the important positions which require a succession plan. The nomination of successors will take into account various factors, such as age, working experience, and past performance.

## Remuneration of Directors and Executives

### Directors' Remuneration

#### 1) Monetary Remuneration

The Nomination and Remuneration Committee determined the directors' remuneration for 2020 by taking into account the business size and the Board of Directors' responsibilities, in comparison with other comparable listed companies in terms of market capitalization. The 2020 Annual General Meeting of Shareholders, held on 16 July 2020, passed a resolution to approve the directors' remuneration and bonus for the year 2020 in the amount of not exceeding THB2.63 million, equivalent to 0.5 percent of the annual cash dividend of the Company paid to the shareholders from the Company's operating results for the fiscal year ended 31 March 2020 (decreased by approximately 34.58 percent comparing with the directors' bonus of the preceding year). The directors were delegated to allocate the same among themselves after being approved by the 2020 Annual General Meeting of Shareholders.

The rates of directors' remuneration (including the executives who took the position of director) in 2020 are as follows:

## 2) Non-monetary remuneration

- None -

### Executive Remuneration

The Nomination and Remuneration Committee is also responsible for considering and determining the amount and forms of short-term and long-term remunerations of the Chairman of the Executive Committee and the Chief Executive Officer. In determining such remuneration, the Nomination and Remuneration Committee took into account the performance assessments based on various key performance indicators, business achievement, and the Company's operating results comparing with other listed companies in the same industry. The executive's remuneration must be proposed to the Board of Directors' meeting for consideration and approval on an annual basis.

Criteria for performance assessment are as follows:

	Key Performance Indicators (KPIs)
<b>Chairman of the Executive Committee</b>	<ul style="list-style-type: none"> <li>• Shareholder's wealth</li> <li>• Corporate governance</li> <li>• Corporate social responsibilities</li> <li>• Relationship with customers, landlords and business alliances</li> </ul>
<b>Chief Executive Officer</b>	<ul style="list-style-type: none"> <li>• Financial performance</li> <li>• Service and products from customers' perspective</li> <li>• Operational excellence</li> <li>• Personnel development</li> <li>• Innovation</li> </ul>

For other executives, the Chief Executive Officer will determine the remunerations of each executive, as appropriate, based on various performance indicators. The overall annual salary adjustment will be in line with the economic situation and the Company's operating results. The executives' remuneration (excluding the monthly remuneration and meeting allowance paid as directors and/or members of the sub-committees) in 2020/21 is as follows:

	Year 2020/21
Number of Executives (Person)	8
Remuneration from the Company's and its subsidiaries (THB Million)	51.8

### Oversight of the subsidiaries' and the associated companies' operations

The Company has monitoring and supervising mechanisms in relation to the management and operation of its subsidiaries and associated companies to maintain benefit of the Company's investment, as follows:

- 1) The Board of Directors will consider and designate the Company's directors, executives or authorized persons to be the representatives in the subsidiaries and the associated companies according to the Company's shareholding ratio in such entities to monitor, supervise, and determine important policies and/or engage in the management of such businesses for the best interest of the Company. In this respect, the Board of Directors and/or the Executive Committee (as the case may be) will instruct the Company's representatives on the vote casting direction for any significant agenda items of the companies which VGI has invested in (whether directly or indirectly);
- 2) The Company has the mechanism to monitor the disclosure of financial information, operating results, the entry into connected transactions, acquisition and disposal of assets, or any other significant transactions of the subsidiaries and the associated companies so that they are accurate and complete according to the Office of the SEC's and the SET's regulations; and
- 3) The Company requires its subsidiaries and associated companies to have a suitable and adequate internal control system.

### Monitoring of the corporate governance policy and procedure compliance

VGI places the importance to good corporate governance. VGI has issued the policy and guidelines of the corporate governance policy and code of conduct. The Company also encouraged the understanding and compliance of the policy constantly. Moreover, VGI considers and reviews the corporate governance policy and code of conduct on the annual basis. The Board of Directors' Meeting no.3/2021 has reviewed the policy on 23 March 2021.

VGI has monitored to ensure the compliance of the good corporate governance as follows.

### Conflict of Interest Policy

VGI Group recognizes the importance of doing business with transparency, taking into account all stakeholders. Thus, it has become an important policy to prohibit the directors, executives, and employees from exploiting their positions to seek personal benefit from performing their duties. Therefore, a policy on related party transaction was adopted as a guideline for directors, executives, and employees of VGI Group (Please see additional information under Section 12 Related Party Transaction).

In this regard, VGI requires its directors and executives to send their report on conflict of interest of themselves and their related person(s) to the Company Secretary Division to keep for record and deliver copies of the same to the Chairman of the Board of Directors and the Chairman of the Audit Committee for their acknowledgement within 7 business days from the date of receipt of such report, as an information for examining and overseeing any item which may be a conflict of interest with VGI Group and to comply with relevant regulations, announcements, and the conflict of interest policy of the Company.

In addition, the Board of Directors also set additional conflict of interest policy to prevent any conflict of the best interest of VGI Group and VGI shareholders, including maintaining good corporate governance, as follows:

- 1) When entering into new business, the Company must propose the details regarding the feasibility study plan to the Board of Directors or any person designated by the Board of Directors, and must arrange for a consideration of investment plan, taking into account the return and benefit that would be generated upon the Company and its shareholders. Nonetheless, the Company has no policy to make any transaction with its directors, executives, major shareholders, or any related person thereof, unless it is necessary or to support the business of VGI Group, and for the best benefit of the Company and its shareholders as a whole. In addition, the Company must strictly comply with the relevant announcement and regulations with respect to related party transaction.
- 2) If it is necessary for the Company to lend to its joint venture company in a form of shareholder loan as a financial support, the Company will lend according to the investment proportion, unless there is a necessary and appropriate cause which the Board of Directors will consider and approve on a case by case basis.

However, the Company has no policy to lend money to its directors, executives, or shareholders and/or related person thereof or the joint venture business of the said persons, unless it is a lending proportionate to the investment percentage or for the best interest of the Company and its shareholders. In addition, the Company must strictly comply with the relevant announcements and regulations with respect to related party transaction.

- 3) The Company will prepare agreements in writing according to the form as required by laws, and systematically keep such agreements for record.
- 4) The Board of Directors has approved, in principle, with respect to trade agreements which contain general trade conditions for the transaction between the Company or its subsidiaries with the directors, executives, or any related person thereof to be in line with Section 89/12 of the Securities and Exchange Act B.E. 2535 (as amended). For the related party transaction which does not contain general trade conditions and/or following market price, the Company must strictly comply with the relevant announcements and regulations with respect to related party transaction and not infringing the intellectual property of others.

### Insider Information Policy

VGI is well aware of the importance of the prevention of insider information use by the directors, executives, and employees for the benefit of themselves or others. Therefore, the directors, executives, and employees shall strictly comply with the rules and regulations of the Office of the SEC and the good corporate governance principles, with material details summarized as follows:

- 1) VGI directors and executives (including spouse and minor children of such person) are required to report the change in their securities holding to the Office of the SEC according to Section 59 of the Securities and Exchange Act B.E. 2535 (as amended) within 3 business days from the date of the change in securities holding, and deliver copy of such report to the Company Secretary Division on the same date of report to the Office of the SEC in order to gather, summarize, and present to the Board of Directors' Meeting for their acknowledgement on a quarterly basis.

2) The directors, executives, and employees are prohibited from using insider information for the benefit of VGI securities trade or disclosing insider information to outsiders or non-related persons

before such insider information has been publicly disclosed via electronic information disclosure system of the SET.

For clarification regarding the compliance of the insider information policy, VGI has implemented its guidelines which can be summarized as follows:

Restricted Person for Purchase and Sell	Restricted Securities for Purchase and Sell	Blackout Period for Purchase and Sell (From the Date of Disclosure of Financial Statements)		Blackout Period for Purchase and Sell in Case Any Incident Which May Affect the Securities Price Occurred
		Before Disclosure	After Disclosure	
The Company, its subsidiaries, associated companies, directors, executives, and/or any person in the position or in the command line which has access to the insider information of the Company, its subsidiaries, and associated companies	Securities of the Company, its subsidiaries, and associated companies	1 month prior to the date of the Board of Directors' Meeting which has the agenda to consider and approve the financial statements	1 day after the date of the Board of Directors' Meeting which approves the financial statements	<ul style="list-style-type: none"> <li>- 14 days prior to the date of each Board of Directors' Meeting</li> <li>- Until 1 day after the date of each Board of Directors' Meeting</li> </ul>

If any director, executive, or employee violates the aforementioned insider information policy, not only would there be a penalty according to the Securities and Exchange Act B.E. 2535 (as amended), but it would also be considered as a violation to the work regulations which a disciplinary action shall be imposed. The disciplinary actions consist of 3 degrees, from written warning, suspending no more than 7 days without pay, and dismissing without paying compensation, respectively depending on the nature of violation, degree of violation, or degree of damage occurred.

### Anti-Corruption and Bribery Policy

VGI Group has a policy to operate its business with integrity, honesty, and transparency pursuant to the relevant laws and standards, with a determination to fight all forms of corruption and bribery following the Company's declaration of intention to join the Thailand's Private Sector Collective Action Coalition Against Corruption (CAC). On 18 August 2017, the Company became a member of the Thailand's Private Sector Collective Action Coalition Against Corruption, and has been consistently encouraging and requiring the

Company, its subsidiaries, and any person relating to the business operation of VGI Group to comply with the anti-corruption and bribery policy. In addition, on 30 June 2020, the Company participated in the risk assessment of the Anti-Corruption and extended the membership with CAC which will be expired on 29 June 2023.

The Board of Directors, executives, and all levels of employees have complied with the "Do It Right" guideline as addressed by the Executive Director of the Company and Chairman of BTS Group Holdings Public Company Limited group companies. The Board of Directors issued the Anti-Corruption measures (review on an annual basis) which consists of

- (1) Anti-Corruption Policy which covers the measures and procedures regarding the charitable contribution, political contribution, no giving or acceptance of gifts from government agencies, no acceptance, offer or demanding gifts or rewards for the business and other costs.
- (2) Whistle Blowing Policy and Protection Measures
- (3) Fraud Risk Management Guideline which is the additional measure of the anti-corruption

In addition, VGI also adopted a reporting system for the receipt of gift, asset, or any other benefit according to the "No Gift Policy". VGI has compiled the gifts that were unable to be returned to the giver and handled them as appropriate.

#### Whistle Blower

VGI encourages directors, executives, employees of the Company to conduct the business in a proper transparent, fair and accountable manner. Therefore, the Company established a channel for receiving clues about wrongdoing, actions that violate the Company's procedures, law, ethics, code of conduct or any other action suspected of corruption. All stakeholders can report incidents or clues through 3 different channels, either the internal and outside the organization, of complainants and informants. The Company will conceal the name, address or any information that can identify the complainants or the informants. And the information of the complainants and the informants will be kept confidential. In 2020/2021 VGI has not received any clues or complaints about corruption.

# 6.4 INTERNAL CONTROL AND RELATED PARTY TRANSACTIONS

## Internal Control System

The Board of Directors places an importance on a good internal control system with a view that a good internal control system will enhance the Company's operation to achieve its objectives and goals as determined, particularly the matters relating to efficiency and effectiveness of business operations, reliability of financial reports and compliance with applicable laws and regulations. In this regard, the Board of Directors assigned the Audit Committee to review and evaluate the Company's internal control system, and report to the Board of Directors on an annual basis for determining a business supervisory framework and ensuring efficiency and effectiveness of the internal control system. The evaluation of the internal control system covers various aspects in accordance with the Internal Control-Integrated Framework set out by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO").

The Board of Directors' Meeting No. 4/2021, held on 27 May 2021, acknowledged the evaluation results and the Audit Committee's opinion on the sufficiency of the Company's internal control system, and had an opinion in line with the Audit Committee's that the Company's internal control system was sufficient and suitable for its business operation and that there were no material deficiencies in the internal control system. The details of which can be summarised as follows:

### 1) Control Environment

The Company clearly determined and reviewed its vision, missions, strategies and business directions and announced the same as an operational framework for all employees' acknowledgement. The Company also had an organization structure that supports the effectiveness of the Company's operation by dividing into command lines where the scope of duties and responsibilities of each command line were clearly determined. The organization structure is regularly reviewed to be suitable for the Company's business operation to ensure that each business unit can achieve their objectives and goals.

In addition, the Company has set out its policy and procedures for the approval of matters relating to finance, procurement, general administration, human resources management, and the Corporate Governance Policy and Code of Conduct with clear penalties set out to be imposed on any violation. The Company regularly reviewed and developed relevant policies, rules and operating procedure manual so that to be line with its vision, missions, strategies and business directions and suitable for situation. In this regard, the Company has arranged a training program to build knowledge and understanding with respect to the Corporate Governance Policy and Code of Conduct, including measures and guidelines on anti-corruption for the Company's executives and personnel. Relevant policies, rules, and operating procedure manuals were communicated to the employees and published via the Company's intranet for acknowledgement. It was required as one of the duties and responsibilities of all directors, executives, and employees to acknowledge and strictly adhere to the Company's policies and guidelines. In this regard, the Company's directors, executives, and supervisors shall set a good example and be responsible for monitoring, supervising, and encouraging their subordinates to behave and comply with the Company's defined policies and guidelines.

### 2) Risk Management

The Company was aware of the importance of risk management as a key mechanism that would help the Company achieve its targets according to its objectives, business plans, strategies and visions. Thus, the Company has set up and developed framework and procedures to manage risks in line with the guidance outlined by the COSO to reduce probability of incident which might have negative impact on the organization. The risk management process consisted of 4 steps, i.e. (1) risk identification, (2) risk assessment, (3) risk management and mitigation, and (4) risk monitoring and report.

### 3) Control Activities

The Company has set policies, manuals, and operating procedures in writing and monitor, control, and ensure their strict compliance on a regular basis. The Company has set out clear scopes of authority and limit of approval of the Board of Directors, the Executive Committee, the Chief Executive Officer, and each level of management. There was an explicit separation of duties and responsibilities for procurement, accounting records and treasury to ensure efficiency of internal audit. In addition, the Company has also circumspectly specified policies and procedures on the Company's entry into transactions with its major shareholders, directors, executives, or any of their related persons, including the connected transactions or the transactions that may have conflict of interest. The policies and procedures were also specified for the use of insider information and the Company's assets for their own interest. These were consistent and in compliance with rules and regulations specified by the Office of SEC, the Capital Market Supervisory Board and the SET.

Moreover, the Company has set policies and procedures for regular monitoring and control of the operations of its subsidiaries. Guidelines regarding monitoring, supervising, and determining important policies were also provided to the Company's representatives who are in the subsidiaries, to ensure that the operation of the subsidiaries would be in accordance with the objectives, targets, and the applicable laws.

### 4) Information and Communication

The Company gave priority to the quality of the information and communication system to ensure that the shareholders, the Board of Directors, sub-committees, executives, employees, and other stakeholders obtain accurate, complete, and sufficient information in a timely manner to make an informed decision. The Company has carried out various matters relating to the information and communication system, as follows:

- Adopted accounting policies that are in accordance with the Generally Accepted Accounting Principles (GAAP) which are suitable for the Company's business operation; and had all accounting records and its supporting documents which properly kept and verifiable;
- Prepared and delivered invitations to meetings together with supporting documents, and recorded minutes of meetings in an accurate and complete manner and proposed to the Board of Directors and shareholders within the time period specified by law; in addition, the Company has prepared and disclosed reports on management discussion and analysis, other material information, or information that may affect the price of the Company's securities, in accordance with the applicable regulations, including having important documents systematically kept by the company secretary in order for any verification;
- Communicated internally via various channels to allow the executives and employees to acknowledge and access the information efficiently, e.g. direct communication from the Chief Executive Office through the arrangement of CEO Town Hall, publication of news and documents of the Company via intranet, email, VGI LINE official account in LINE Messaging application, and other information platforms of the Company; further, the Company also had the Company Secretary Division to cooperate and communicate with the Board of Directors and the sub-committees; and
- Arranged for an investor relations team to provide information and respond to the investors' enquiries, including arranging for a communicating channel for external stakeholders to communicate through the investor relations team, the Company Secretary Division, and the Internal Audit Division. (Please consider additional contact details under Subject 6. Corporate Governance) In addition, the Company has arranged a specific channel for reporting on any suspicious corruption/bribery via email at VGI\_CAC@vgi.co.th. Those complaints will be collected and presented further to the Audit Committee and/or the Corporate Governance Committee and/or the Board of Directors (as the case may be).

## 5) Monitoring Activities

The Company had clear procedures to monitor the implementation of the internal control system to achieve the defined objectives and goals. Such procedures have been reviewed on a regular basis to be in line with the Company's business operation. The Internal Audit Division was responsible for reviewing and evaluating the Company's internal control system, including providing recommendations to improve operating procedures to ensure that the internal control system was sufficient and appropriate and report the evaluation results of the same directly to the Audit Committee. In case any material deficiencies were discovered, the relevant persons must report the cause and propose solutions to the Audit Committee and/or the Board of Directors (as the case may be). Furthermore, the Company has set up procedures to monitor the progress of the corrective actions and report the same to the Audit Committee and/or the Board of Directors (as the case may be) in the specified timeframe.

### Opinion of the Audit Committee and the Auditor on the Company's Internal Control System

The Audit Committee has evaluated the sufficiency of the Company's internal control system in 5 aspects, i.e. control environment, risk management, control activities, information and communication, and monitoring activities, and viewed that the Company's internal control system was sufficient and suitable for the business operation, capable of protecting the Company's assets from unduly or unauthorised use by its directors or the executives, and no material deficiency in the internal control system was found. In addition, the Company's auditor has reviewed the internal control system that relates to auditing to design an appropriate approach to audit consolidated financial statements and standalone financial statements for the current situation. The auditor viewed that the Company's consolidated financial statements and standalone financial statements accurately represents financial position, operating results, and cashflow of the Company as of 31 March 2021 and fairly according to the standards of financial reports.

## Internal Audit Division

The Internal Audit Division is responsible for examining and assessing the sufficiency of the Company's internal control system on financial and non-financial information, including reviewing compliance with internal rules and providing recommendations for development and improvement of the Company's operations to ensure full compliance with applicable laws and regulations, with good corporate governance and internal control to enable the Company to achieve its business objectives.

The Internal Audit Division prepared an annual audit plan and a 3-year audit plan based on the risk assessment principles with respect to risks that may affect the Company's operation, covering the entire operating procedures of the organization. Such plans have been approved by the Audit Committee. The scope of Internal Audit Division's functions covers examination, review, and assessment of sufficiency and efficiency of the Company's internal control system, including quality of performance in the following matters:

- Reliability of the internal control system, including compliance with the accounting and financial standards and policies to ensure that the accounting and financial information of the Company and its subsidiaries is accurate and reliable, including measures for protecting the Company's assets from any corruption or fraud;
- Reliability of the internal control system in terms of administration and operation to ensure that they are in line with the policies and plans and complying with the applicable laws, rules, and regulations of the supervisory authorities, including the Company's rules which govern various aspects, i.e. management, operation, procurement, marketing, administration, finance and accounting, and human resources;
- Reliability of the internal control system in terms of information by reviewing the structure of the Information and Technology Division, access to information and programs, data processing, system development, data backup, backup plans in case of emergency, authority for operating the system, and storage of documents, manuals, and computer system flowchart; and

- Reliability of the internal control system in terms of anti-corruption to respond to the Company's anti-corruption measures, which shall promote the Company's business operation with integrity and sustainable development. In this respect, the Internal Audit Division is one of the channels to receive complaints. The operation manual in respect of receipt of complaints, was prepared which consist of general compliants, complaints on matters causing material adverse impact, and compliants on suspicious matters concerning corruption and fraud. The Internal Audit Division will monitor the progress of complaint handling and report such progress to the Audit Committee.

The Internal Audit Division presents the audit report to the Audit Committee on a quarterly basis, including monitoring the progress of the corrective actions regularly as per the recommendations provided and encouraging the business units to conduct risk self-assessment. The Internal Audit Division is independent from other departments and is able to access the information and asset of the Company that relate to the auditing. The Internal Audit Division are also able to request for information and explanation from the relevant persons on the subject matters assigned by the Audit Committee to audit. This is to ensure that the internal control system is effective and efficient, the financial report is credible, and the operation is in compliance with the applicable laws, rules, and regulations of the governmental and supervisory agencies and in line with the Company's policies, plans, rules, regulations, orders, and announcements as well as to protect the Company's assets, to prevent the Company from any contingent damage, and to create checks and balances among the business units so that the goals are accomplished.

In addition, the Internal Audit Division encourages its personnel to develop their competencies by regularly attending internal and external training courses to enhance their knowledge, abilities, and expertise in internal audit function, including any other skills necessary to carry out the tasks.

## **Related Party Transactions**

### **Related party transactions between the Company and persons who may have conflicts of interest for the fiscal years ended 31 March 2021 and transactions during the past 2 years**

For the fiscal year 2020/21, the Company and its subsidiaries had related party transactions disclosed by the auditor in the notes to audited financial statements and reviewed by the Audit Committee. The Audit Committee viewed that the management conducted the transactions for the utmost benefit of the Company on the arm's length basis under general trading conditions when compared with transactions with third party. The details of the key related party transactions of the Company and its subsidiaries are as follows:

BTSG has its own investor relations department and there are certain parts of business database that need to be shared between BTSG and the Company. Therefore, using the investor relations service from BTSG would benefit the Company in terms of operational flexibility. In addition, it would be more efficient to have one team handling investor relations activities of the two companies. In this respect, the investor relations service fees quoted by BTSG was reasonable comparing with cost that would incur to the Company if it renders the investor relations function itself or engages an external service provider.	
<p><b>Remark:</b></p> <p>(1) A transaction value for the fiscal year 2018/19 was a sum of service fee and expense charged by BTSG from the following services, (a) investor relations service in the amount of THB4.35 million and (b) CSR works in the amount of THB3.01 million.</p>

### **Measures and Procedures for Approval of Related Party Transactions**

The Company has set out measures and procedures for approval of related party transactions. Any entry into a related party transaction with interested persons by the Company and/or its subsidiaries must be considered and opined by the Audit Committee in terms of necessity and appropriateness of such transaction taking into account the best interest of the Company. If the Audit Committee does not have the expertise to consider such transaction, the Company shall engage an independent expert or the Company's auditor to provide opinion on such transaction, so that the Audit Committee and/or the Board of Directors and/or the shareholders, as the case may be, can use such opinion to support their decision-making. To approve related party transactions, any interested persons will not be entitled to vote on the relevant agenda. The Company will disclose any related party transactions in the notes to its financial statements audited by the Company's auditor, and 56-1 One Report.

### **Policy on Entry into Related Party Transactions**

The Company set out its policy on entry into a related party transaction as follows:

- (1) Directors and executives of the Company and its subsidiaries must prepare a report on their conflicts of interest, including those of their related person(s), and submit the same to the Company as information for compliance with the regulations concerning related party transactions;
- (2) Entry into any related party transaction that may lead to any conflict of interest must be avoided;
- (3) In the case that it is necessary to enter into a related party transaction, the Company and its subsidiaries are required to propose such related party transaction to the Executive Committee, the Audit Committee, the Board of Directors, or the shareholders' meeting (as the case may be) for approval, except for the transaction having general commercial terms, which have been approved in principle by the Board of Directors;
- (4) When the Company wishes to enter into a related party transaction, it is required to comply with the Company's internal procedures and the regulations specified by the Office of the SEC and the SET;
- (5) Prices and conditions of a related party transaction shall be determined on an arm's length basis, which must be fair, reasonable, and for the best interest of the Company. In the case there is no comparable price in an uncontrolled transaction, the Company will compare the price with the products or services having the same or similar nature;
- (6) Any interested person on a related party transaction shall not be entitled to approve or vote on such agenda; and
- (7) In considering a key related party transaction, the Company or its subsidiaries may appoint an independent expert to appraise and compare the price in order to ensure that such related party transaction is reasonable and for the best interest of the Company.

### **Tendency on Entry into Related Party Transactions with Interested Persons**

The Company has a policy to avoid entry into any related party transactions that may lead to conflicts of interest. However, the Company may need to enter into a related party transaction with interested person(s) in the future probably because of continuous commercial agreements executed by the Company in the past or it may be part of the Company's normal course of business.

In this respect, the Board of Directors shall comply with laws concerning securities and exchange and relevant regulations, notifications, orders, or requirements and the Company's internal rules concerning related party transactions and major acquisition and disposition of asset transactions. This is to ensure that any decision to enter into these related party transactions will not create any conflicts of interest and will be made for the best interest of the Company and the shareholders. The Company will disclose its related party transactions in the 56-1 One Report and the notes to financial statements audited by the Company's auditor.

# INDEPENDENT AUDITOR'S REPORT 7.2

To the Shareholders of VGI Public Company Limited

## Opinion

I have audited the accompanying consolidated financial statements of VGI Public Company Limited and its subsidiaries (the Group), which comprise the consolidated statement of financial position as at 31 March 2021, and the related consolidated statements of comprehensive income, changes in shareholders' equity and cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies, and have also audited the separate financial statements of VGI Public Company Limited for the same period.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of VGI Public Company Limited and its subsidiaries and of VGI Public Company Limited as at 31 March 2021, their financial performance and cash flows for the year then ended in accordance with Thai Financial Reporting Standards.

## Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing. My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I am independent of the Group in accordance with the Code of Ethics for Professional Accountants as issued by the Federation of Accounting Professions as relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with the Code. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

## Emphasis of Matters

I draw attention to the following matters.

- a) Note 1.2 to the financial statements, the COVID-19 pandemic is continuing to evolve, it has slowed down the economic recovery, adversely impacting most businesses and industries. This situation significantly affects the Group's business activities, and this is significantly impacting the Group's financial position, operating results, and cash flows at present and is expected to do so in the future. The Group's management has continuously monitored ongoing developments and assessed the financial impact in respect of the valuation of assets, provisions and contingent liabilities, and has used estimates and judgement in respect of various issues as the situation has evolved.
- b) Note 3 to the financial statements regarding the changes in accounting policies due to the adoption of new financial reporting standards and the effect of the termination of Accounting Guidance on Temporary Relief Measures for Accounting Alternatives in Response to the Impact of the COVID-19 Pandemic. The Group has assessed the financial impacts of these and recognized an impairment loss for investment in associate amounting to Baht 219 million in administrative expenses in the separate financial statements for the current year.
- c) Note 34.4 to the financial statements regarding litigation between the Company and Midas Global Media Company Limited.

My opinion is not modified in respect of these matters.

## Key Audit Matters

Key audit matters are those matters that, in my professional judgement, were of most significance in my audit of the financial statements of the current period. These matters were addressed in the context of my audit of the financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on these matters.

I have fulfilled the responsibilities described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report, including in relation to these matters. Accordingly, my audit included the performance of procedures designed to respond to my assessment of the risks of material misstatement of the financial statements. The results of my audit procedures, including the procedures performed to address the matters below, provide the basis for my audit opinion on the accompanying financial statements as a whole.

Key audit matters and how audit procedures respond to each matter are described below.

#### Revenue recognition under the advertising business

The Group has entered into agreements with a large number of customers, and used sales promotions, discounts and special discounts to boost sales. As a result, the Group's recognition of revenues is subject to a variety of conditions under these agreements. The amount and timing of revenue recognition also directly and significantly affects the Group's profit or loss, and service income is a significant item in the financial statements.

I reviewed the revenue recognition of the Group by gaining an understanding of the Group's internal controls with respect to the revenue cycle and selecting representative samples to test the operation of the designed controls, applying a sampling method to select service agreements to assess whether revenue recognition was consistent with the conditions of the relevant agreements, and whether it was in compliance with the Group's policy. I also examined supporting documents on a sampling basis, for actual sales and service transactions occurring during the year and near the end of the accounting period, sent confirmations for the outstanding balance of account receivables, and reviewed credit notes that the Group issued after the period-end date. In addition, I performed analytical procedures on the revenue accounts to detect possible irregularities in sales and service transactions throughout the period, particularly for accounting entries made through journal vouchers.

#### Impairment of goodwill and investments consideration

As at 31 March 2021, the Group had goodwill with a carrying amount of Baht 236 million and investments in subsidiaries, joint ventures and associates with a carrying amount of Baht 9,223 million (the Company only: Baht 9,426 million) as discussed in Notes 10, 11, 12 and 16 to the financial statements. In addition, as discussed in Note 12.4 to the financial statements, the Group recognised impairment loss of investment in associate amounting to Baht 219 million in the separate financial statements for this year. The determination of impairment of those assets are significant accounting estimates requiring management to exercise a high degree of judgment in identifying the impairment indicators and cash generating units, and estimating the cash inflows that are expected to be generated from that group of assets in the future including setting an appropriate discount rate and long-term growth rate.

I assessed the indicators of the impairment of assets, the identification of cash generating units and the financial models selected by management, by gaining an understanding of management's decision-making process and testing the significant assumptions applied in preparing estimates of the cash flows expected to be realised from the assets in the future, which involved comparing those assumptions to information from both internal and external sources of the Group and comparing past cash flow projections to actual operating results, in order to evaluate the cash flow projections. I also evaluated the discount rate applied by the Group through analysis of the weighted average cost of capital of the entity, tested the calculation of the realisable values of the assets using the selected financial model, and considered the impact of changes in key assumptions on those realisable values, especially changes in the discount rate and long-term revenue growth rates. Moreover, I reviewed the disclosures made with respect to the impairment assessment for those assets.

#### Leases

As discussed in Note 3 to the financial statements, the Group adopted TFRS 16 Leases and elected not to restate comparative information. The Group recognised right-of-use assets and lease liabilities in the consolidated statement of financial position, amounting to Baht 395 million and Baht 437 million, respectively (the Company only: Baht 354 million and Baht 398 million, respectively) as at 1 April 2020 and amounting to Baht 438 million and Baht 488 million, respectively (the Company only: Baht 386 million and Baht 436 million, respectively) as at 31 March 2021. The calculations of the right-of-use assets and lease liabilities reflected in the financial statements are complex, primarily due to the large number of leases held by the Group, and the variety of terms of individual lease contracts. In addition, management is required to exercise judgement in determining the incremental borrowing rate (IBR) and whether there is an option to extend the lease period. There is therefore a risk relating to completeness and accuracy of the lease data which underpins the TFRS 16 calculations.

I have examined the lease recognition of the Group in relation to TFRS 16 as follows.

- Gained an understanding of and assessed the design and implementation of the key controls of the Group relating to the implementation of TFRS16.
- Determined whether the contracts of the Group meet the criteria of leases under TFRS 16, and considered the completeness of the lease data by testing the reconciliation of the lease liabilities to operating lease commitments disclosed in the notes to the consolidated financial statements for the year 2020.
- Verified the accuracy of the underlying lease data by agreeing selected samples of leases to the original contracts.
- Tested the correctness of the calculation of the right-of-use assets and lease liabilities by selecting samples to recalculate.
- Assessed the incremental borrowing rate (IBR) applied in determining lease liabilities.
- Reviewed the disclosures made in the notes to the consolidated financial statements pertaining to leases, including disclosures relating to the first-time adoption of TFRS 16.

### **Other Information**

Management is responsible for the other information. The other information comprise the information included in annual report of the Group, but does not include the financial statements and my auditor's report thereon. The annual report of the Group is expected to be made available to me after the date of this auditor's report.

My opinion on the financial statements does not cover the other information and I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit or otherwise appears to be materially misstated.

When I read the annual report of the Group, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance for correction of the misstatement.

### **Responsibilities of Management and Those Charged with Governance for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Thai Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Thai Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Thai Standards on Auditing, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. I am responsible for the direction, supervision and performance of the group audit. I remain solely responsible for my audit opinion.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies

in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the financial statements of the current period

and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

I am responsible for the audit resulting in this independent auditor's report.

# 7.4 NOTES TO CONSOLIDATED FINANCIAL STATEMENT

VGI Public Company Limited

**Notes to consolidated financial statements  
For the year ended 31 March 2021**

## 1. General information

### 1.1 Corporate information

VGI Public Company Limited (“the Company”) is a public company incorporated and domiciled in Thailand. Its parent company is Bangkok Mass Transit System Public Company Limited (“BTSC”), which is incorporated in Thailand. The parent company of the Group is BTS Group Holdings Public Company Limited (“BTSG”). The Company is principally engaged in the arrangement and provision of advertising services in BTS stations, inside BTS trains, on BTS train bodies, in office buildings, and other spaces and the rental of retail space at BTS stations. The registered office of the Company is at 21, 9th Floor, TST Tower, Viphavadi-Rangsit Road, Chomphon, Chatuchak, Bangkok.

### 1.2 The outbreak of the coronavirus (COVID-19)

The Coronavirus disease 2019 pandemic significantly affects. It has slowed down the economic recovery, adversely impacting most businesses and industries. This situation significantly affects the Group’s business activities, and this is significantly impacting the Group’s financial position, operating results, and cash flows at present, and is expected to do so in the future. The Group’s management has continuously monitored ongoing developments and assessed the financial impact in respect of the valuation of assets, provisions and contingent liabilities, and has used estimates and judgement in respect of various issues as the situation has evolved.

## 2. Basis of preparation

2.1 The financial statements have been prepared in accordance with Thai Financial Reporting Standards enunciated under the Accounting Professions Act B.E. 2547 and their presentation has been made in compliance with the stipulations of the Notification of the Department of Business Development, issued under the Accounting Act B.E. 2543.

The financial statements in Thai language are the official statutory financial statements of the Company. The financial statements in English language have been translated from the Thai language financial statements.

The financial statements have been prepared on a historical cost basis except where otherwise disclosed in the accounting policies.

- 2.3 The separate financial statements present investments in subsidiaries, joint ventures and associates under the cost method.

### 3. New financial reporting standards

#### a) Financial reporting standards that became effective in the current year

During the year, the Group has adopted the revised (revised 2019) and new financial reporting standards and interpretations which are effective for fiscal years beginning on or after 1 January 2020. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards. The adoption of these financial reporting standards does not have any significant impact on the Group's financial statements. However, the new standard involves changes to key principles, which are summarised below:

#### Financial reporting standards related to financial instruments

A set of TFRSs related to financial instruments consists of five accounting standards and interpretations, as follows:  
Financial reporting standards:

- TFRS 7 Financial Instruments: Disclosures
- TFRS 9 Financial Instruments

Accounting standard:

- TAS 32 Financial Instruments: Presentation

Financial Reporting Standard Interpretations:

- TFRIC 16 Hedges of a Net Investment in a Foreign Operation
- TFRIC 19 Extinguishing Financial Liabilities with Equity Instruments

These TFRSs related to financial instruments make stipulations relating to the classification of financial instruments and their measurement at fair value or amortised cost, taking into account the type of instrument, the characteristics of the contractual cash flows and the Company's business model, calculation of impairment using the expected credit loss method, and hedge accounting. These include stipulations regarding the presentation and disclosure of financial instruments.

The impact of the adoption of these standards on the Group's financial statements is as follows.

- Classification and measurement of investments in equity instruments of non-listed companies - The Group is to measure investments in equity instruments of non-listed companies at fair value and to classify the investments as financial assets at fair value, through either profit or loss or through other comprehensive income.
- Recognition of expected credit losses - The Group recognises an allowance for expected credit losses on its debt instruments measured at amortised cost or fair value through other comprehensive income, contract assets, loan commitments, and financial guarantees issued by the Group, and it is no longer necessary for a credit-impaired event to have occurred.
- Recognition of derivatives - The Group is to initially recognise derivatives at their fair value on the contract date and subsequently measure them at fair value at the end of each reporting period. Changes in the fair value of derivatives are recognised in profit or loss. However, the Group applies of hedge accounting for derivatives.
- Hedge accounting - All of the Group's hedging relationships existing before TFRS 9 adoption, that are eligible under TFRS 9 requirements, remain eligible to be treated as hedging relationships

The Group adopted these financial reporting standards which the cumulative effect is recognised as an adjustment to the retained earnings and/or other components of shareholders' equity as at 1 April 2020, and the comparative information was not restated.

The cumulative effect of the change is described in Note 4 to the financial statements.

Furthermore, the Group elected to early adopt the amendments to TFRS 9 and TFRS 7 relating to interest rate

benchmark reform during the year. These amendments are effective for fiscal years beginning on or after 1 January 2021. These amendments provide reliefs which enable the Group's hedge accounting to continue during the period of uncertainty, before the replacement of an existing interest rate benchmark with an alternative risk-free interest rate. The relevant details are disclosed in Note 36.1 to the financial statements.

### **TFRS 16 Leases**

TFRS 16 supersedes TAS 17 Leases together with related interpretations. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases, and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is low value.

Accounting by lessors under TFRS 16 is substantially unchanged from TAS 17. Lessors will continue to classify leases as either operating or finance leases.

The Group adopted these financial reporting standards using the modified retrospective method of initial adoption of which the cumulative effect is recognised as an adjustment to the retained earnings as at 1 April 2020, and the comparative information was not restated.

The cumulative effect of the change is described in Note 4 to the financial statements.

### **Accounting Guidance on Temporary Relief Measures for Accounting Alternatives in Response to the Impact of the Covid-19 Pandemic**

The Federation of Accounting Professions announced Accounting Guidance on Temporary Relief Measures for Accounting Alternatives in Response to the Impact of the COVID-19 Pandemic. Its objectives are to alleviate some of the impacts of applying certain financial reporting standards, and to provide clarification about accounting treatments during the period of uncertainty relating to this situation.

On 22 April 2020, the Accounting Treatment Guidance was announced in the Royal Gazette and it is effective for the financial statements prepared for reporting periods ending between 1 January 2020 and 31 December 2020.

The Group has elected to apply the following temporary relief measures on accounting alternatives:

- Not to take into account forward-looking information when determining expected credit losses, in cases where the Group uses a simplified approach to determine expected credit losses.
- Not to account for any reduction in lease payments by lessors resulting from the COVID-19 situation as a lease modification, with the lease liabilities that come due in each period reduced in proportion to the reduction and depreciation of right-of-use assets and interest on lease liabilities recognised in each period reversed in proportion to the reduction, with any differences then recognised in profit or loss.
- Not to use information relating to the COVID-19 situation in determining whether sufficient taxable profits will be available in future periods against which deferred tax assets can be utilised.
- Not to consider the COVID-19 situation as an indication that an asset may be impaired in accordance with TAS 36, Impairment of Assets.
- Not to use information relating to the COVID-19 situation that may affect the cash flow forecasts used in testing goodwill.

The Group has assessed the financial impacts of the uncertainties of the COVID-19 Pandemic on the valuation of assets, provisions and contingent liabilities. As a result, all temporary relief measures on accounting alternatives are terminated on 31 December 2020, the Group recognised resulting losses, amounting to Baht 219 million, in administrative expenses in the separate financial statements for the current year related to impairment of investment, as described in Note 12.4 to the financial statements.

### **b) Financial reporting standards that became effective for fiscal years beginning on or after 1 January 2021**

The Federation of Accounting Professions issued a number of revised financial reporting standards and interpretations, which are effective for fiscal years beginning on or after 1 January 2021. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards.

The management of the Group is currently evaluating the impact of these standards to the financial statements in the year when they are adopted.

#### 4. Cumulative effects of changes in accounting policies due to the adoption of new financial reporting standard

As described in Note 3 to the financial statements, the Group has adopted financial reporting standards related to financial instruments and TFRS 16. The cumulative effect of initially applying these standards is recognised as an adjustment to retained earnings and/or other components of shareholders' equity as at 1 April 2020. Therefore, the comparative information was not restated.

The impacts from changes in accounting policies as at 1 April 2020 due to the adoption of these standards are presented as follows:

## 5. Significant accounting policies

### 5.1 Revenue recognition

#### Rendering of services

##### Advertising income

Advertising income is recognised when services have been rendered taking into account the stage of completion. Service rate charged is in accordance with service area, service rate charged per area and service period stipulated in the contract.

Commissions paid or discounts given to counterparties who are considered to be customers of the Group are recorded net of revenues from advertising services and volume rebates given to counterparties who are considered to be agents of the Group (which are not the customers of the Group) are recorded as selling expenses.

##### Service income

Revenue from service provision of customer information online is recognised when control of the asset or service are transferred to the customer. Revenue is measured at the amount received or expected receivable of the asset or service transferred, after deducting return and discounts.

Revenue from other digital service provision is recognised when services have been rendered taking into account the stage of completion.

Revenue from advertising production is recognised upon completion of service in cases where control of the assets created has not yet been transferred to the customers.

Insurance brokerage income is recognised on the date the insurance policy comes into effect, net of discounts, and when services have been rendered. In cases where, it is highly uncertain that such income will be received, as a result of policy cancellation, the brokerage income is recorded as advance brokerage income, and recognised as income over the covered period of the policy.

##### Revenues from system installation services

Revenue from system installation services is recognised over time when services have been rendered taking into account the stage of completion, measuring based on information provided by the Group's project managers (output method).

The recognised revenue which is not yet due per the contracts has been presented under the caption of "Accrued income" under other receivables in the statement of financial position. The amounts recognised are reclassified to trade receivables when the Group's right to consideration is unconditional such as upon completion of services and acceptance by the customer.

The obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer is presented under the caption of "Unearned revenue" in the statement of financial position. The amounts are recognised as revenue when the Group performs under the contract.

Revenue from system installation services is recognised upon completion of service which control of the assets created has not yet been transferred to the customers.

### **Sales of goods**

Revenue from sale of goods is recognised at the point in time when control of the asset is transferred to the customer, generally on delivery of the goods. Revenue is measured at the amount of the consideration received or receivable, excluding value added tax, of goods supplied after deducting returns, discounts, allowances and price promotions to customers.

### **Dividends**

Dividends are recognised when the right to receive the dividends is established.

### **Interest income**

Interest income is calculated using the effective interest method and recognised on an accrual basis. The effective interest rate is applied to the gross carrying amount of a financial asset, unless the financial assets subsequently become credit-impaired when it is applied to the net carrying amount of the financial asset (net of the expected credit loss allowance).

### **Finance cost**

Interest expense from financial liabilities at amortised cost is calculated using the effective interest method and recognised on an accrual basis.

## **5.2 Cash and cash equivalents**

Cash and cash equivalents consist of cash in hand and at banks, and all highly liquid investments with an original maturity of three months or less and not subject to withdrawal restrictions.

## **5.3 Inventories**

Inventories are valued at the lower of cost under the weighted average method and net realisable value.

## **5.4 Investments**

Investments in joint ventures and associates are accounted for in the consolidated financial statements using the equity method.

Investments in subsidiaries, joint ventures and associates are accounted for in the separate financial statements using the cost method, less allowance for impairment of investments (if any).

## **5.5 Buildings improvement and equipment / Depreciation**

Buildings improvement and equipment are stated at cost less accumulated depreciation and allowance for loss on impairment of assets (if any).

Depreciation of buildings improvement and equipment is calculated by reference to their costs, on the straight-line basis over the following estimated useful lives:

Buildings improvement	- 5 - 20 years and contract period
Equipment	- 5 - 10 years
Furniture, fixtures and office equipment	- 2 - 10 years
Motor vehicles	- 5 - 6 years

Depreciation is included in profit or loss.

No depreciation is provided on assets under installation.

An item of buildings improvement and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on disposal of an asset is included in profit or loss when the asset is derecognised.

## 5.6 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale

are capitalised as part of the cost of the respective assets. All other borrowing costs are expensed in the period they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

## 5.7 Intangible assets

Intangible assets with finite lives are amortised on a systematic basis over the economic useful life and tested for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method of such intangible assets are reviewed at least at each financial year end. The amortisation expense is charged to profit or loss.

A summary of the intangible assets with finite useful lives is as follows:

	<u>Useful lives</u>
Royalty	- 10 years
Computer software	- 2-10 years

No amortisation is provided on computer software under development.

## 5.8 Goodwill

Goodwill is initially recorded at cost, which equals to the excess of cost of business combination over the fair value of the net assets acquired. If the fair value of the net assets acquired exceeds the cost of business combination, the excess is immediately recognised as gain in profit or loss.

Goodwill is carried at cost less any accumulated impairment losses. Goodwill is tested for impairment annually and when circumstances indicate that the carrying value may be impaired.

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the Group's cash generating units (or group of cash-generating units) that are expected to benefit from the synergies of the combination. The Group estimates the recoverable amount of each cash-generating unit (or group of cash-generating units) to which the goodwill relates. Where the recoverable amount of the cash-generating unit is less than the carrying amount, an impairment loss is recognised in profit or loss. Impairment losses relating to goodwill cannot be reversed in future periods.

## 5.9 Business combinations under common control

Business combinations under common control are accounted for using the pooling of interests method, with the cost of the business combinations under common control being the fair value, at the date of exchange, of the consideration transferred to obtain control. The assets and liabilities of the entities pooled are recognized based on their book values, in proportion to the interests previously under common control.

Differences between the costs of the business combination under common control and the acquirer's proportionate interests in the book value of the pooled entities are directly recognised in shareholders' equity (and if the pooled entities have profit or loss transactions directly recognised in the shareholders' equity, the financial statements after business combination present the transaction as if the business combination occurred at the earliest reporting date). The remaining difference between the cost of the business combination under common control and the acquirer's proportionate interest in the book value of the pooled entities, after recognising the profit or loss transactions directly in shareholders' equity, is presented as "Differences on business combination under common control" in shareholders' equity.

Costs relating to business combinations under common control are accounted for as expenses in the period in which the business combination occurred.

## 5.10 Leases

At inception of contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

## The Group as a lessee

### Accounting policies adopted since 1 April 2020

The Group applied a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. At the commencement date of the lease (i.e. the date the underlying asset is available for use), the Group recognises right-of-use assets representing the right to use underlying assets and lease liabilities based on lease payments.

### **Right-of-use assets**

Right-of-use assets are measured at cost, less accumulated depreciation, any accumulated impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities initially recognised, initial direct costs incurred, and lease payments made at or before the commencement date of the lease less any lease incentives received.

Depreciation of right-of-use assets are calculated by reference to their costs, on the straight-line basis over the shorter of their estimated useful lives and the lease term.

Space for advertising	- 1 - 14 years
Buildings	- 1.5 - 6 years
Motor vehicles	- 1 - 6 years
Equipment storage space	- 9 years

If ownership of the leased asset is transferred to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

### **Lease liabilities**

Lease liabilities are measured at the present value of the lease payments to be made over the lease term. The lease payments include fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be payable under residual value guarantees. Moreover, the lease payments include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising an option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses in the period in which the event or condition that triggers the payment occurs.

The Group discounted the present value of the lease payments by the interest rate implicit in the lease or the Group's incremental borrowing rate. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a change in the lease term, a change in the lease payments or a change in the assessment of an option to purchase the underlying asset.

### **Short-term leases and leases of low-value assets**

A lease that has a lease term less than or equal to 12 months from commencement date or a lease of low-value assets is recognised as expenses on a straight-line basis over the lease term.

### Accounting policies adopted before 1 April 2020

Leases of property, plant or equipment which transfer substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lower of the fair value of the leased assets and the present value of the minimum lease payments. The outstanding rental obligations, net of finance charges, are included in long-term payables, while the interest element is charged to profit or loss over the lease period. The assets acquired under finance leases is depreciated over the shorter of the useful life of the asset and the lease period.

Leases of property, plant or equipment which do not transfer substantially all the risks and rewards of ownership are classified as operating leases. Operating lease payments are recognised as an expense in profit or loss on a straight-line basis over the lease term.

### **The Group as a lessor**

A lease that transfers substantially all the risks and rewards incidental to ownership of an underlying asset to a lessee is classified as finance leases. As at the commencement date, an asset held under a finance lease is recognised as a receivable at an amount equal to the net investment in the lease or the present value of the lease payments receivable and any unguaranteed residual value. Subsequently, finance income is recognised over the lease term to reflect a constant periodic rate of return on the net investment in the lease.

A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset to a lessee. Lease receivables from operating leases is recognised as income in profit or loss on a straight-line basis over the lease term. Initial direct costs incurred in obtaining an operating lease are added to the carrying amount of the underlying assets and recognised as an expense over the lease term on the same basis as the lease income.

### **5.11 Related party transactions**

Related parties comprise individuals or enterprises that control, or are controlled by, the Group, whether directly or indirectly, or which are under common control with the Group.

They also include associated companies, and individuals or enterprises which directly or indirectly own a voting interest in the Group that gives them significant influence over the Group, key management personnel, directors, and officers with authority in the planning and direction of the Group's operations.

### **5.12 Foreign currencies**

The consolidated and separate financial statements are presented in Baht, which is also the Company's functional currency. Items of each entity included in the consolidated financial statements are measured using the functional currency of that entity.

Transactions in foreign currencies are translated into Baht at the exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated into Baht at the exchange rate ruling at the end of reporting period.

Gain and loss on exchange are included in determining income, except equity translation difference of instruments measured at fair value through other comprehensive income are included in the fair value gain or loss on equity instruments in other comprehensive income.

### **5.13 Impairment of non-financial assets**

At the end of each reporting period, the Group performs impairment reviews in respect of non-financial assets whenever events or changes in circumstances indicate that an asset may be impaired. The Group also carries out annual impairment reviews in respect of goodwill. An impairment loss is recognised when the recoverable amount of an asset, which is the higher of the asset's fair value less costs to sell and its value in use, is less than the carrying amount. In determining value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, an appropriate valuation model is used. These calculations are corroborated by a valuation model that, based on information available, reflects the amount that the Group could obtain from the disposal of the asset in an arm's length transaction between knowledgeable, willing parties, after deducting the costs of disposal.

An impairment loss is recognised in profit or loss.

In the assessment of asset impairment except for goodwill, if there is any indication that previously recognised impairment losses may no longer exist or may have decreased, the Group estimates the asset's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The increased carrying amount of the asset attributable to a reversal of an impairment loss shall not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in profit or loss.

## 5.14 Employee benefits

### Short-term employee benefits

Salaries, wages, bonuses and contributions to the social security fund are recognised as expenses when incurred.

### Post-employment benefits and other long-term employee benefits

#### Defined contribution plans

The Group and its employees have jointly established a provident fund. The fund is monthly contributed by employees and by the Group. The fund's assets are held in a separate trust fund and the Group's contributions are recognised as expenses when incurred.

#### Defined benefit plans and other long-term employee benefits

The Group has obligations in respect of the severance payments they must make to employees upon retirement under labor law. The Group treats these severance payment obligations as a defined benefit plan. In addition, the Group provides other long-term employee benefit plan, namely long service awards.

The obligation under the defined benefit plan and other long-term employee benefit plan is determined by a professionally qualified independent actuary based on actuarial techniques, using the projected unit credit method.

Actuarial gains and losses arising from defined benefit plans are recognised immediately in other comprehensive income.

Actuarial gains and losses arising from other long-term benefits are recognised immediately in profit and loss.

Past service costs are recognized in profit or loss on the earlier of the date of the plan amendment or curtailment and the date that the Company recognizes restructuring-related costs.

## 5.15 Provisions

Provisions are recognised when the Group has a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

Provision for anticipated losses on installation projects is made in the accounts in full when the possibility of loss is ascertained.

## 5.16 Income tax

Income tax expense represents the sum of corporate income tax currently payable and deferred tax.

### Current tax

Current income tax is provided in the accounts at the amount expected to be paid to the taxation authorities, based on taxable profits determined in accordance with tax legislation.

### Deferred tax

Deferred income tax is provided on temporary differences between the tax bases of assets and liabilities and their carrying amounts at the end of each reporting period, using the tax rates enacted at the end of the reporting period.

The Group recognises deferred tax liabilities for all taxable temporary differences while it recognises deferred tax assets for all deductible temporary differences and tax losses carried forward to the extent that they are probable that future taxable profit will be available against which such deductible temporary differences and tax losses carried forward can be utilised.

At each reporting date, the Group reviews and reduce the carrying amounts of deferred tax assets to the extent that they are no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

The Group records deferred tax directly to shareholders' equity if the tax relates to items that are recorded directly to shareholders' equity.

## 5.17 Financial instruments

### Accounting policies adopted since 1 April 2020

The Group initially measures financial assets at its fair value plus, in the case of financial assets that are not measured at fair value through profit or loss, transaction costs. However, trade receivables, that do not contain a significant financing component, are measured at the transaction price as disclosed in the accounting policy relating to revenue recognition.

### **Classification and measurement of financial assets**

Financial assets are classified, at initial recognition, as to be subsequently measured at amortised cost, fair value through other comprehensive income ("FVOCI"), or fair value through profit or loss ("FVTPL"). The classification of financial assets at initial recognition is driven by the Group's business model for managing the financial assets and the contractual cash flows characteristics of the financial assets.

### Financial assets at amortised cost

The Group measures financial assets at amortised cost if the financial asset is held in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortised cost are subsequently measured using the effective interest rate ("EIR") method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

### Financial assets designated at FVOCI (equity instruments)

Upon initial recognition, the Group can elect to irrevocably classify its equity investments which are not held for trading as equity instruments designated at FVOCI. The classification is determined on an instrument-by-instrument basis.

Gains and losses recognised in other comprehensive income on these financial assets are never recycled to profit or loss.

Dividends are recognised as other income in profit or loss, except when the dividends clearly represent a recovery of part of the cost of the financial asset, in which case, the gains are recognised in other comprehensive income.

Equity instruments designated at FVOCI are not subject to impairment assessment.

### Financial assets at FVTPL

Financial assets measured at FVTPL are carried in the statement of financial position at fair value with net changes in fair value recognised in profit or loss.

These financial assets include derivatives, security investments held for trading, equity investments which the Group has not irrevocably elected to classify at FVOCI and financial assets with cash flows that are not solely payments of principal and interest.

Dividends on listed equity investments are recognised as other income in profit or loss.

### **Classification and measurement of financial liabilities**

Except for derivative liabilities, at initial recognition the Group's financial liabilities are recognised at fair value net of transaction costs and classified as liabilities to be subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. In determining amortised cost, the Group takes into account any discounts or premiums on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance costs in profit or loss.

### **Derecognition of financial instruments**

A financial asset is primarily derecognised when the rights to receive cash flows from the asset have expired or have been transferred and either the Group has transferred substantially all the risks and rewards of the asset, or the Group has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in profit or loss.

### **Impairment of financial assets**

The Group recognises an allowance for expected credit losses (“ECLs”) for all debt instruments not held at FVTPL. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure (a lifetime ECL).

The Group considers a significant increase in credit risk to have occurred when contractual payments are more than 30 days past due and considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to have a significant increase in credit risk and to be in default using other internal or external information, such as credit rating of issuers.

For trade receivables, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. It is based on its historical credit loss experience and adjusted for forward-looking factors specific to the debtors and the economic environment.

A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

### **Offsetting of financial instruments**

Financial assets and financial liabilities are offset, and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

#### Accounting policies adopted before 1 April 2020

### **Accounts receivable**

Accounts receivable are stated at the net realisable value. Allowance for doubtful accounts is provided for the estimated losses that may be incurred in collection of receivables.

The allowance is generally based on collection experience and analysis of debt aging.

### **Investments**

- a) Investments in securities held for trading and derivative instruments are stated at fair value. Changes in the fair value of these securities are recorded in the profit or loss.
- b) Investments in available-for-sale securities are stated at fair value. Changes in the fair value of these securities are recorded in other comprehensive income, and will be recorded in profit and loss when the securities are sold.
- c) Investments in debt securities, both due within one year and expected to be held to maturity, are recorded at amortised cost. The premium/discount on debt securities is amortised/accreted by the effective rate method with the amortised/accreted amount presented as an adjustment to the interest income.
- d) Investments in non-marketable equity securities, which the Group classifies as other investments, are stated at cost net of allowance for impairment loss (if any).

## 5.18 Derivatives and hedge accounting

The Group uses derivatives, such as forward currency contracts, cross currency and interest rate swaps to hedge its foreign currency risks and interest rate risks.

Derivatives are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. The subsequent changes are recognised in profit or loss unless the derivative is designated and effective as a hedging instrument under cash flow hedge / hedges of a net investment in a foreign operation. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Derivatives are presented as non-current assets or non-current liabilities if the remaining maturity of the instrument is more than 12 months and it is not due to be realised or settled within 12 months. Other derivatives are presented as current assets or current liabilities.

### Hedge accounting

For the purpose of hedge accounting, hedges are classified as:

- Cash flow hedges when hedging the exposure to a variability in cash flows that is either attributable to a particular risk associated with a recognised asset or liability
- Hedges of a net investment in a foreign operation

At the inception of a hedging relationship, the Group formally designates and documents the hedging relationship to which it wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge.

The documentation, at the inception of the hedge and on an ongoing basis, includes identification of the hedging instrument, the hedged item, the nature of the risk being hedged and how the Group will assess whether the hedging relationship meets the hedge effectiveness requirements, including analysis of the sources of hedge ineffectiveness and how the hedge ratio is determined.

A hedging relationship qualifies for hedge accounting if it meets all of the following hedge effectiveness requirements:

- There is 'an economic relationship' between the hedged item and the hedging instrument.
- The effect of credit risk is not the dominant factor in the value changes that result from that economic relationship.
- The hedge ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the Group actually hedges and the quantity of the hedging instrument that the Group actually uses to hedge that quantity of hedged item.

Hedges that meet all of the qualifying criteria for hedge accounting are accounted for, as described below:

#### Cash flow hedges

The effective portion of the gain or loss on the hedging instrument is recognised in other comprehensive income in the cash flow hedge reserve, while any ineffective portion is recognised immediately in profit or loss. The cash flow hedge reserve is adjusted to the lower (in absolute amounts) of the cumulative gain or loss on the hedging instrument and the cumulative change in fair value of the hedged item.

The way cash flow hedge reserve accumulated in other comprehensive income are subsequently accounted for, depends on the nature of the underlying hedged transaction. If the hedged transaction subsequently results in the recognition of a non-financial item, the reserve accumulated in equity is removed from the separate component of equity and included in the initial cost or other carrying amount of the hedged asset or liability. This is not a reclassification adjustment and is not recognised in other comprehensive income for the period. For any other cash flow hedges, the reserve accumulated in other comprehensive income is subsequently reclassified to profit or loss as a reclassification adjustment in the same period which the hedged cash flows affect profit or loss.

If cash flow hedge accounting is discontinued, the cash flow hedge reserve accumulated in other comprehensive income must remain in equity if the hedged future cash flows are still expected to occur. Otherwise, the reserve will be immediately reclassified to profit or loss as a reclassification adjustment. After discontinuation, once the hedged cash flow occurs, the way the reserve remaining in equity is accounted for depends on the nature of the underlying transaction as described above.

The Group designates only the spot element of forward contracts and the financial instrument excluding the foreign currency basis spread as a hedging instrument. The change in fair value of the forward element of forward contracts and the foreign currency basis spread of financial instrument that relates to the hedged item is separately accounted for as a cost of hedging which is recognised in other comprehensive income and accumulated in a separate component of equity under cost of hedging reserve.

If the hedged item is transaction-related, the cost of hedging reserve accumulated in other comprehensive income is reclassified to profit or loss when the hedged item affects profit or loss. If the hedged item is time-period related, then the reserve accumulated in other comprehensive income is reclassified to profit or loss on systematic and rational basis. The reclassified amounts are recognised in profit or loss in the same line as the hedged item. If the hedged item is a non-financial item, then the reserve is removed directly from equity and included in the initial carrying amount of the recognised non-financial item. Furthermore, if the Group expects that some or all of the loss accumulated in cost of hedging reserve will not be recovered in the future, that amount is immediately reclassified to profit or loss.

#### Hedges of a net investment in a foreign operation

Hedges of a net investment in a foreign operation, including a hedge of a monetary item that is accounted for as part of the net investment, are accounted for in a way similar to cash flow hedges. Gains or losses on the hedging instrument relating to the effective portion of the hedge are recognised as other comprehensive income while any gains or losses relating to the ineffective portion are recognised in profit or loss. On disposal of the foreign operation, the cumulative value of any such gains or losses recorded in equity is transferred to profit or loss.

### **5.19 Fair value measurement**

Fair value is the price that would be received to sell an asset or paid to transfer a liability

in an orderly transaction between buyer and seller (market participants) at the measurement date. The Group applies a quoted market price in an active market to measure their assets and liabilities that are required to be measured at fair value by relevant financial reporting standards. Except in case of no active market of an identical asset or liability or when a quoted market price is not available, the Group measures fair value using valuation technique that are appropriate in the circumstances and maximise the use of relevant observable inputs related to assets and liabilities that are required to be measured at fair value.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy into three levels based on categorise of input to be used in fair value measurement as follows:

- Level 1 Use of quoted market prices in an observable active market for such assets or liabilities
- Level 2 Use of other observable inputs for such assets or liabilities, whether directly or indirectly
- Level 3 Use of unobservable inputs such as estimates of future cash flows

At the end of each reporting period, the Group determines whether transfers have occurred between levels within the fair value hierarchy for assets and liabilities held at the end of the reporting period that are measured at fair value on a recurring basis.

## **6. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES**

The preparation of financial statements in conformity with financial reporting standards at times requires management to make subjective judgements and estimates regarding matters that are inherently uncertain. These judgements and estimates affect reported amounts and disclosures; and actual results could differ from these estimates. Significant judgements and estimates are as follows:

### **Leases**

#### **Determining the lease term with extension and termination options - The Group as a lessee**

In determining the lease term, the management is required to exercise judgement in assessing whether the Group is reasonably certain to exercise the option to extend or terminate the lease considering all relevant facts and circumstances that create an economic incentive for the Group to exercise either the extension or termination option.

#### **Estimating the incremental borrowing rate - The Group as a lessee**

The Group cannot readily determine the interest rate implicit in the lease, therefore, the management is required to exercise judgement in estimating its incremental borrowing rate to discount lease liabilities. The incremental borrowing rate is the rate of interest that the Group would have to pay to borrow over a similar term, and with

a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment.

#### **Allowance for expected credit losses**

In determining an allowance for expected credit losses of financial assets, the management needs to make judgement and estimates based upon, among other things, past collection history, aging profile of outstanding debts, the expected future cash-inflows and the forecast economic condition for groupings of various customer segments with similar credit risks. The Group's historical credit loss experience and forecast economic conditions may also not be representative of whether a customer will actually default in the future.

#### **Fair value of financial instruments**

In determining the fair value of financial instruments recognised in the statement of financial position that are not actively traded and for which quoted market prices are not readily available, the management exercise judgement, using a variety of valuation techniques and models. The input to these models is taken from observable markets, and includes consideration of credit risk, liquidity, correlation and longer-term volatility of financial instruments. Change in assumptions about these factors could affect the fair value recognised in the statement of financial position and disclosures of fair value hierarchy.

#### **Allowance for impairment of non-financial assets**

In determining allowance for impairment of non-financial assets, the management is required to exercise judgements regarding determination of the recoverable amount of the asset, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs of disposing of the asset. The value in use calculation is based on a discounted cash flow model. The cash flows do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the performance of the assets of the cash-generating unit being tested (the fair value less costs to sell calculated by the income approach, the cash flows include significant future investments that will enhance the performance of the assets of the cash-generating unit being tested). The recoverable amount is sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes.

#### **Buildings improvement and equipment / Depreciation**

In determining depreciation of buildings improvement and equipment, the management is required to make estimates of the useful lives and residual values of the buildings improvement and equipment including asset decommissioning costs and to review estimated useful lives, residual values and asset decommissioning costs when there are any changes.

#### **Litigations**

The Group has contingent liabilities as a result of litigations. The Group's management has used judgement to assess of the results of the litigations and believes that no loss will result. Therefore no contingent liabilities are recorded as at the end of reporting period.

## 12.1 Master Ad Public Company Limited (“MACO”)

On 30 January 2020, MACO issued and offered 1,080 million additional ordinary shares to Plan B Media Public Company Limited. As a result, the Company’s shareholding in MACO decreased from 33.17% to 26.55% of all issued shares of MACO and the Company therefore lost control over MACO and has had no ability to direct MACO’s significant activities.

The Company has changed the classification of its investment in MACO from the investment in a subsidiary to an association since 30 January 2020 and recorded gain on change in status of the investment amounting to Baht 550 million in the statement of comprehensive income for the year ended 31 March 2020.

The Company completed the measurement of the fair values of the identifiable assets acquired and liabilities assumed of the associates. The value of the identifiable assets acquired and liabilities assumed of MACO as at the change in status of the investment date were summarised as below.

## 12.2 VGI MACO (Singapore) Private Limited (“VGIMS”)

During the current year, VGIMS increased its registered share capital by SGD 12 million, from SGD 100 (100 ordinary shares of SGD 1 each), through the issue of 12 million additional ordinary shares of SGD 1 each. The Company made full payment for the additional ordinary shares in proportion to its shareholding.

VGIMS used the proceeds from payment for the shares to acquire 830,000 additional ordinary shares of VGI Vietnam Joint Stock Company (“VGI Vietnam”), representing 15% of the total issued shares of VGI Vietnam, at a total price of VND 208,599 million (equivalent to Baht 283 million). VGIMS has a significant influence over such company and therefore classified it as investment in associate. VGIMS paid for and received the shares on 16 September 2020 (the acquisition date).

In addition, VGIMS entered into the Share Purchase Agreement with the existing shareholders (“Sellers”) to acquire 553,000 ordinary shares of VGI Vietnam, representing 10% of the total issued shares of VGI Vietnam, at a total price of VND 139,066 million. The payment and transfer of shares will be made after VGIMS and the sellers comply with conditions precedent stipulated in the Share Purchase Agreement.

The Sellers grant VGIMS the option to sell shares (Put option) as stipulated in the Shareholder Agreement, as detailed below:

- 1) Option to sell shares if there is an occurrence of events as stipulated in the agreement. The exercise period is two years after the acquisition date of additional ordinary shares.
- 2) Option to sell shares at any time during a one-year period after the second year from the acquisition date of additional ordinary shares.

The Company entered into forward exchange contracts that were designated as a hedge of the net investment in VGI Vietnam, the functional currency of which is VND.

Detail of forward exchange contracts are as below:

<u>Notional amount</u>	<u>Maturity date</u>
VND 52,150 million	13 September 2021

Subsequently, VGIMS and the Sellers completed all conditions precedent stipulated in the Share Purchase Agreement. On 7 April 2021, VGIMS increased its registered share capital by Baht 189 million, from Baht 283 million, through the issue of 8 million additional ordinary shares and made a payment to the Seller for the share purchase at a total price of VND 139,066 million. On 9 April 2021, VGIMS received transfer of ordinary shares from the Seller.

### **12.3 Kerry Express (Thailand) Public Company Limited ("KEX")**

In December 2020, KEX made an initial public offering (IPO) of 300 million newly issued ordinary shares with a par value of Baht 0.5 each, at an offering price of Baht 28 per share, amounting to Baht 8,400 million. The Stock Exchange of Thailand approved the 300 million ordinary shares of KEX with a par value of Baht 0.5 each as listed securities, with trading permitted from 24 December 2020. As a result, the Company's shareholding in KEX decreased from 23% to 19.03% of all issued shares. The Company recorded the resulting gain of Baht 513 million from the change in ownership interests in the associate under "Share of profit from investments in joint ventures and associates" in the consolidated statement of comprehensive income for the year.

Subsequently, in February 2021, the Company sold 17 million ordinary shares of KEX through the Stock Exchange of Thailand for a total of Baht 935 million. As a result, the Company's shareholding in KEX decreased from 19.03% to 18.06% of all issued shares. The Company recorded the gain on sale of investment in associate of Baht 593 million (the Company only: Baht 626 million) in the statement of comprehensive income for the year.

### **12.4 VGI Global Media (Malaysia) Sdn Bhd ("VGIM") (25% held by the Company and 75% held by MACO)**

#### **a) Capital increase**

In March 2021, the Company's Executive Committee Meeting passed a resolution approving the acquisition of VGIM's additional ordinary shares issued and offered to its existing shareholders on a pro rata basis to their respective shareholding (rights offering). VGIM issued 72 million additional ordinary shares at an offering price of MYR 1 each, to its existing shareholders. The Company paid the additional shares in proportion to its shareholding. VGIM used the proceeds from payment for the shares to repay loans and accrued interest to the Company and MACO. In addition, the Company's Executive Committee Meeting passed a resolution approving the acquisition of 6 million of VGIM's additional ordinary shares issued and offered to its existing shareholders, at an offering price of MYR 1 per share for use as working capital. In April 2021, the Company made full payment for the additional ordinary shares in proportion to its shareholding.

## **b) Advertisement Concession Agreement**

### Advertisement Concession Agreement of the airport

Under the Advertisement Concession Agreement, VGIM Group has rights to use advertising space in concession areas of an airport in Malaysia for operating advertising business ("Airport"). VGIM Group is to pay a minimum guaranteed monthly fee as stipulated in the agreement. However, the Coronavirus disease 2019 pandemic is continuing to evolve, adversely impacting the business activities of the Airport. VGIM Group is negotiating with the managements of the Airport to request postponement of payment and reduction of the fees payable as from April 2020.

The Advertisement Concession Agreement of the Airport ended on 30 April 2021. VGIM Group has an option to renew the agreement for 3 years and pay a minimum guaranteed monthly fee as stipulated in the agreement. However, VGIM Group did not exercise the renewal option because VGIM Group is negotiating with the Airport's management for the reduction of the outstanding fee payable.

On 7 April 2021, VGIM Group proposed to the Airport to rent and sublease the advertising media assets from VGIM Group if the Airport managed the advertising themselves or to engage VGIM Group to manage the concession area temporarily until a new tender is awarded. However, the Airport has not responded to VGIM Group's proposal. On 21 April 2021, the Airport announced a tender offer for the management of the advertising area in the Malaysian Airport and the tender offer was closed on 11 May 2021. VGIM Group has submitted a bid proposal and it is expected a decision on the new concessionaire will take no less than 1 month.

As at 31 March 2021, the Group recorded liabilities based on the minimum guaranteed monthly fee stipulated in the agreement and had unpaid amounts arising from April 2020, amounting to Baht 290 million. VGIM Group will settle the payable when the negotiations are concluded.

### Advertisement Concession Agreement of Mass Rapid Transit

Under the Advertisement Concession Agreement, VGIM Group has rights to use advertising space in concession areas of Mass Rapid Transit in Malaysia ("MRT"). VGIM Group is to pay a minimum guaranteed monthly fee as stipulated in the agreement. However, the Coronavirus disease 2019 pandemic is continuing to evolve, adversely impacting the business activities of the MRT. VGIM Group is negotiating with the authorities' managements to request postponement of payment and reduction of the fees payable as from April 2020. In February 2021, VGIM Group partially paid the concession fee to MRT and VGIM Group's management is negotiating and requesting a further discount on the remaining fee.

As at 31 March 2021, VGIM Group recorded liabilities based on the minimum guaranteed monthly fee stipulated in the agreement and had unpaid amounts arising from April 2020, amounting to Baht 29 million. VGIM Group will settle the payable when the negotiations are concluded.

### Financial guarantee by the Company

MACO has entered into the guarantee agreement with a financial institution to issue bank guarantees amounting to MYR 15.6 million and MYR 2.0 million to the Airport and MRT in Malaysia, respectively, on behalf of subsidiaries security as stipulated in the Advertisement Concession Agreement. Such bank guarantees are valid until October and December 2021, respectively. MACO has entered into a memorandum of agreement with the Company in jointly liable for the sum of bank guarantees at the proportionate of shareholding in VGIM, which the Company recognised allowance for expected credit losses on the financial guarantee contracts.

### Impairment of investment in associate

During the year, the Company recognises an impairment loss for investment in associate amounting to Baht 219 million in administrative expenses in the separate financial statements for the current year to reduce the carrying amount of the asset to its recoverable amount. This is because of the Coronavirus disease 2019 pandemic which is adversely impacting the business activities of the MRT and Airport. There are delays in purchases of advertising in those locations, which are operated by the VGIM Group. As a result, VGIM Group

had operating losses during the year. In addition, the concession agreement which granted the right to manage the concession area in the Airport ended on 30 April 2021 and it is highly uncertain whether a new concession agreement will be made.

The Company has determined the recoverable amounts of its investment in associate based on value in use, using cash flow projections based on financial estimates approved by the management, covering the periods stipulated in the Advertisement Concession Agreement.

Key assumptions used in the value in use calculations are as follows:

(Unit: % per annum)

Pre-tax discount rate 12.00

Management has considered the discount rate as a pre-tax rate to reflect the risks specific to the associate.

More details are described in MACO's Note 8.1.4 b) to the financial statements for the year ended 31 March 2021.

## 16. GOODWILL

The Group allocated goodwill acquired through business combinations to the cash generating units (CGUs) for annual impairment testing as follows:

(Unit: Thousand Baht)

	Consolidated financial statements	
	2021	2020
Advertising space in the building segment Rabbit Care Company Limited (Formerly known as "Rabbit Internet Company Limited")	78,656	78,656
Total	236,287	236,287

The Group determined the recoverable amounts of the CGUs based on value-in-use by preparing projections of the cash flows that are expected to be generated from that group of assets in the future, with reference to financial projections approved by the management. These cash flow projections cover a period of 5 years.

Key assumptions used in value in use of significant CGUs calculation are summarised below:

	Advertising space in the building segment	Rabbit Care Company Limited
Long term growth rates	3.00%	3.00%
Discount rates	14.83%	10.00 - 11.73%

The management determined growth rates based on historical operation results and expected market growth, inflation rate and discount rates is the rate that reflects the risks specific to each CGU.

The management believes that there is no impairment loss for goodwill.

### 30. EARNINGS PER SHARE

Basic earnings per share is calculated by dividing profit for the year attributable to equity holders of the Company (excluding other comprehensive income) by the weighted average number of ordinary shares in issue during the year.

Diluted earnings per share is calculated by dividing profit for the year attributable to equity holders of the Company (excluding other comprehensive income) by the weighted average number of ordinary shares in issue during the year plus the weighted average number of ordinary shares which would need to be issued to convert all dilutive potential ordinary shares into ordinary shares. The calculation assumes that the conversion took place either at the beginning of the year or on the date the potential ordinary shares were issued.

The following table sets forth the computation of basic and diluted earnings per share:

Consolidated financial statements					
Profit for the year		Weighted average number of ordinary shares		Earnings per share

The exercise price of the VGI-W2 warrants was higher than the average market price of the Company's ordinary shares for the years ended 31 March 2021 and 2020. Therefore, the Company did not assume conversion of the warrants in the calculation of its diluted earnings per share in the consolidated and separate financial statements.

### 31. SEGMENT INFORMATION

Operating segment information is reported in a manner consistent with the internal reports that are regularly reviewed by the chief operating decision maker in order to make decisions about the allocation of resources to the segment and assess its performance, which is measured based on operating profit or loss and on a basis consistent with that used to measure operating profit or loss in the financial statements. The chief operating decision maker has been identified as Chief Executive Officer.

For management purposes, the Group is organised into business units based on the services they provide, and there are four reportable segments as follows:

- 1) Provision of advertising space in the elevated mass transit system segment ("BTS segment"),
- 2) Provision of outdoor advertising space segment
- 3) Digital service segment, and
- 4) Other segment

The basis of accounting for any transactions between reportable segments is consistent with that for third party transactions.

The following table presents revenues and profit information regarding the Group's operating segments for the years.

As described in Note 3 to financial statements regarding initial adoption of TFRS 16, the Group recognised lease liabilities based on long-term commitments as at 31 March 2020 except short-term leases and leases of low-value assets.

- b) As at 31 March 2021, the Group had outstanding commitments which future payments are required in respect of service agreements amounting to Baht 137 million (2020: Baht 139 million) (the Company only: Baht 74 million (2020: Baht 57 million)).

### 34.3 Guarantees

- a) As at 31 March 2021, there were outstanding bank guarantees of approximately Baht 14 million (2020: Baht 14 million) (the Company only: Baht 7 million (2020: Baht 10 million)) issued by banks on behalf of the Group to guarantee contractual performance, electricity use, among others in respect of certain performance bonds as required in the normal course of business. The bank guarantees issued to the subsidiary's suppliers by banks on behalf of the subsidiary are secured by pledges of the subsidiary's fixed deposits.
- b) As discussed in Note 12.4 to financial statements, MACO has entered into a memorandum of agreement with the Company in jointly liable at the proportionate of shareholding in VGIM for the sum of bank guarantees on behalf of the VGIM Group to the Airport and MRT.

### 34.4 Litigations

- 34.4.1 Dispute between Midas Global Media Co., Ltd. ("Midas") (as a claimant) and the Company (as a respondent) on the ground of a breach of contract in relation to the default of Shareholders Agreement

On 25 June 2018, Midas, a former joint venture company between the Company and Deelight Multimedia Co., Ltd. ("Deelight"), submitted a dispute to the Thai Arbitration, Black Dispute No. 37/2561, claiming that the Company was in breach of Midas' Shareholders Agreement dated 5 February 2014 (the "Shareholders Agreement") made between the Company and Deelight, and requiring for damages in the amount of Baht 1,004 million with an interest at the rate of 7.5% per annum.

On 7 February 2020, the Company was notified of the arbitration award dated 5 February 2020, rendered by a majority vote of the Tribunal (2:1), decided that the Company was in breach of contract and that the Company must pay damages to Midas in the amount of Baht 579 million with an interest at the rate of 7.5% per annum from the date of the dispute submission (i.e. 25 June 2018) until completion of payment. On 2 April 2020, Midas filed a motion to the Civil Court to render the judgment enforcing the Company to abide by the arbitration award.

In this regard, the Company and the legal consultant of the Company had a different opinion from such arbitration award and are of the view that the said arbitration award may be both factually and legally deviated. As such, on 5 May 2020, the Company filed the motion to the Civil Court to abrogate the said arbitration award.

In this respect, the Company has filed a motion to the Civil Court to request for the joinder of the motion to render the enforcement of the arbitration award filed by Midas and the motion to abrogate the arbitration award filed by the Company, in which such joinder is allowed on 30 September 2020. Currently, those motions are under the consideration of the Civil Court.

As the said dispute has not been final and binding and the executive of the Company is certain that the Company duly complied with its contractual obligations according to the Shareholders Agreement, the provisions from the said dispute thus was not recorded in the financial statements for the year.

#### 34.4.2 Civil case between Midas (as a plaintiff) and the Company and MACO (as defendants) accusing of wrongful act

On 14 February 2018, Midas filed a civil lawsuit against the Company and MACO accusing the Company and MACO of wrongful act, claiming damages in the amount of Baht 24 million with an interest at the rate of 7.5% per annum, on grounds of the Airtime on 4 LED Billboards Agreement dated 31 January 2017 between Midas and MACO. On 12 September 2019, the Civil Court dismissed the case as the facts which Midas presented to the court did not accountably proved that the Company and MACO jointly committed fraud against Midas which might have caused trading damage. Therefore, it did not constitute a wrongful act against Midas. Midas subsequently submitted a motion to appeal. On 20 January 2021, the Appeal Court gave a verdict upholding the judgement of the Civil Court. The plaintiff has requested an extension of the period to appeal the Supreme Court and the court has issue an order permitting an extension until 2 June 2021.

### 35. FAIR VALUE HIERARCHY

#### Derivatives designated as hedging instruments

Cash flow hedges

##### Foreign currency and interest rate risk

The Group also uses cross currency and interest rate swap and interest rate swap and which is designated as hedging instruments to hedge cash flows on variable-rate loans whereby the Group receives a principle in foreign currency stipulated in the agreement and a variable interest rate equal to ZTIBOR and THBFX plus a certain margin specified in the agreement and pays principle and interest at a fixed rate of interest as specified in the agreements.

There is an economic relationship between the hedged items and the hedging instruments as the terms of the cross currency and interest rate swap and interest rate swap match those of loans and interests (i.e., notional amount and expected payment date). The Group has established a hedge ratio of 1:1 for the hedging relationships as the underlying risks of the cross currency and interest rate swap and interest rate swap are identical to the hedged risk components. To test the hedge effectiveness, the Group uses the hypothetical derivative method and compares the changes in the fair value of the hedging instruments against the changes in fair value of the hedged items attributable to the hedged risks.

Hedge ineffectiveness can arise from:

- Differences in the timing of the cash flows of the hedged items and the hedging instruments
- Different indexes (and accordingly different curves) linked to the hedged risk of the hedged items and hedging instruments
- The counterparties' credit risk differently impacting the fair value movements of the hedging instruments and hedged items

The Group is holding the following derivatives as hedging instruments as at 31 March 2021:

	Maturity within 1 year
<b>Cross currency and interest rate swap (for loans and interests)</b>	
Notional amount (Million Baht)	600
Exchange rate (JPY/Baht)	3.247
Fixed rate (%)	Fixed rate specified in the agreement
Floating rate (%)	ZTIBOR plus a certain margin specified in the agreement
<b>Interest rate swap (for interests)</b>	
Notional amount (Million Baht)	600
Fixed rate (%)	Fixed rate specified in the agreement
Floating rate (%)	6M THBFIX plus a certain margin specified in the agreement

The impact of the hedging instruments on the statement of financial position as at 31 March 2021 and the effect of the cash flow hedge in the statement of comprehensive income for the year then ended are, as follows:

(Unit: Million Baht)

	Notional amounts	Carrying amount	Changes in fair value used for measuring ineffectiveness
Cross currency and interest rate swap - hedge the risk arising from loans and interests	600	(63)	(26)
Interest rate swap - hedge the risk arising from interests	600	(12)	8

The impact of hedged items on the statement of financial position as at 31 March 2021 is, as follows:

(Unit: Million Baht)

	Effective portion recognised in shareholders' equity	Cash flow hedge reserve
Loans and interests	(18)	26

### Effect from interest rate benchmark reform

The Group has exposures to benchmark InterBank Offered Rates ("IBORs") on its financial instruments that will be replaced or reformed. There is uncertainty over the timing and the methods of transition in some jurisdictions that the Group operates in. The Group anticipates that IBOR reform will impact its risk management and hedge accounting. The Group elects to early adopt the amendments to TFRS 9 and TFRS 7 to those hedging relationships directly affected by IBOR reform.

The Group monitors IBOR reform. The committee evaluates the extent to which contracts reference IBOR cash flows, whether such contracts will need to be amended as a result of IBOR reform and how to manage communication about IBOR reform with counterparties.

The Group hold cross currency and interest rate swap and interest rate swaps which are designated in cash flow hedging relationships. These swaps have floating legs that are indexed to ZTIBOR and THBFIX.

benchmark rate to an alternative benchmark interest will occur. This transition may occur at different times for the hedged item and hedging instrument, which may lead to hedge ineffectiveness. If there is an impact from the IBOR reform in the future, the Group will measured its hedging instruments indexed to ZTIBOR using available quoted market rates for ZTIBOR based instruments of the same tenor and similar maturity and has measured the cumulative change in the present value of hedged cash flows attributable to changes in ZTIBOR on a similar basis. The Group will not be impacted by the THBFIX interest rate reform as the THBFIX interest rate swap will expire before the reform.

### Hedge of net investment in foreign operation

As discussed in Note 12.2 to the financial statements, during the year, the Group entered into forward contracts which have been designated as a hedge of the net investment in the associate in Vietnam. The forward contracts are being used to hedge the Group's exposure to the VND foreign exchange risk on the investment. Gains or losses on the effective portion of hedging instrument are transferred to other comprehensive income to offset any gains or losses on translation of the net investment in the associate.

There is an economic relationship between the hedged item and the hedging instrument as the net investment creates a translation risk that will match the foreign exchange risk on the forward contracts. The Group has established a hedge ratio of 1:1 as the underlying risk of the hedging instrument is identical to the hedged risk component. The hedge ineffectiveness will arise when the amount of the investment in the foreign associate becomes lower than the amount of the fair value of forward contracts.

### Impact of hedging on equity

Set out below is the reconciliation of each component of equity and the analysis of other comprehensive income:

(Unit: Thousand Baht)

## 36.2 Financial risk management objectives and policies

The Group has the financial risks associated with significant financial instruments and how they are managed is described below.

### Credit risk

The Group is exposed to credit risk primarily with respect to accounts receivable, loans, deposits with banks and financial institutions and other financial instruments. Except for derivatives, the maximum exposure to credit risk is limited to the carrying amounts as stated in the statement of financial position. The Group's maximum exposure relating to derivatives is noted in the liquidity risk topic.

## Receivables

The Group manages the risk by adopting appropriate credit control policies and procedures and therefore does not expect to incur material financial losses. Outstanding receivables are regularly monitored. In addition, the Group does not have high concentrations of credit risk since it has a large customer base in various industries.

An impairment analysis is performed at each reporting date to measure expected credit losses. The provision rates are based on expected future cash flow and/or days, past due for groupings of various customer segments with similar credit risks. The Group classifies customer segments by customer type. The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions.

Financial instruments and cash deposits

The Group manages the credit risk from balances with banks and financial institutions by making transactions only with approved counterparties.

The credit risk on debt instruments and derivative financial instruments is limited because the counterparties are banks with high credit-ratings assigned by international credit-rating agencies.

## Market risk

There are three types of market risk comprising currency risk, interest rate risk and equity price risk.

### Foreign currency risk

The Group's exposure to the foreign currency risk relates primarily to its loans that are denominated in foreign currency and its investments in overseas associate.

The Group manages its foreign currency risk of loans and overseas investment by entering into the cross currency and interest rate swaps and foreign exchange forward with contract period during 12 months and 5 years. The details are described in Note 36.1 to the financial statements.

As at 31 March 2021 and 2020, the balances of financial assets and liabilities denominated in foreign currencies are summarised below.

Foreign currency	Consolidated / Separate financial statements					
	Financial assets		Financial liabilities		Average exchange rate	
	2021 (Million)	2020 (Million)	2021 (Million)	2020 (Million)	2021 (Baht per 1 foreign currency unit)	2020
Japanese yen	-	-	1,948	2,273	0.2967	0.3011
United State Dollar	17	5	-	1	30.0371	32.6712
Renminbi	2	4	2	3	4.6187	4.6026

### Interest rate risk

The Group's exposure to interest rate risk relates primarily to its long-term loans and lease liabilities. Most of the Group's financial assets and liabilities bear floating interest rates or fixed interest rates which are close to the market rate.

The Group enters into interest rate swap, in which it agrees to exchange, at specified intervals, between fixed and variable rate interest amounts calculated by reference to an agreed-upon notional principal amount.

As at 31 March 2021 and 2020, significant financial assets and liabilities classified by type of interest rate are summarised in the table below, with those financial assets and liabilities that carry fixed interest rates further classified based on the maturity date, or the repricing date if this occurs before the maturity date.

### Equity price risk

Equity price risk is the risk arising from changes in the price of equities or common stock that may cause volatility in earning or fluctuations in the value of financial assets. The Group has policies to manage the risk by maintaining long-term equity investments and investing in growth potential equities and/or those intended to support the business. The Group has closely managed and monitored market situations to provide information for management to monitor the risk.

### Liquidity risk

The Group gives high priority to liquidity management by holding appropriate levels of cash and cash equivalents along with other liquid assets and arranging sufficient credit facilities with financial institutions. In addition, the Group has access to a wide range of funding sources. The Group regularly monitors the adequacy of liquidity and adjusts its liquidity management strategy on a timely basis.

### 36.3 Fair value of financial instruments

The methods and assumptions used by the Group in estimating the fair value of financial instruments are as follows:

- For financial assets and liabilities which have short-term maturity, including cash and cash at banks, accounts receivable, short-term loans, advances, deposits, accounts payable and short-term loans, their carrying amounts in the statement of financial position approximate their fair value.
- For equity securities, their fair value is generally derived from quoted market prices or the equity value from recently funding.
- For long-term loans to related parties carrying interest approximate to the market rate, their carrying amounts in the statement of financial position approximates their fair value.
- For long-term loans from financial institutions carrying interest approximate to the market rate, their carrying amounts in the statement of financial position approximates their fair value.
- For derivatives, their fair value has been determined by using a discounted future

cash flow model and a valuation model technique. Most of the inputs used for the valuation are observable in the relevant market, such as spot rates of foreign currencies, yield curves of the respective currencies, interest rate yield curves and commodity price yield curves. The Group had considered to counterparty credit risk when determining the fair value of derivatives

During the current year, there were no transfers within the fair value hierarchy.

### 37. CAPITAL MANAGEMENT
